3D Tiles for Interior & Exterior Walls

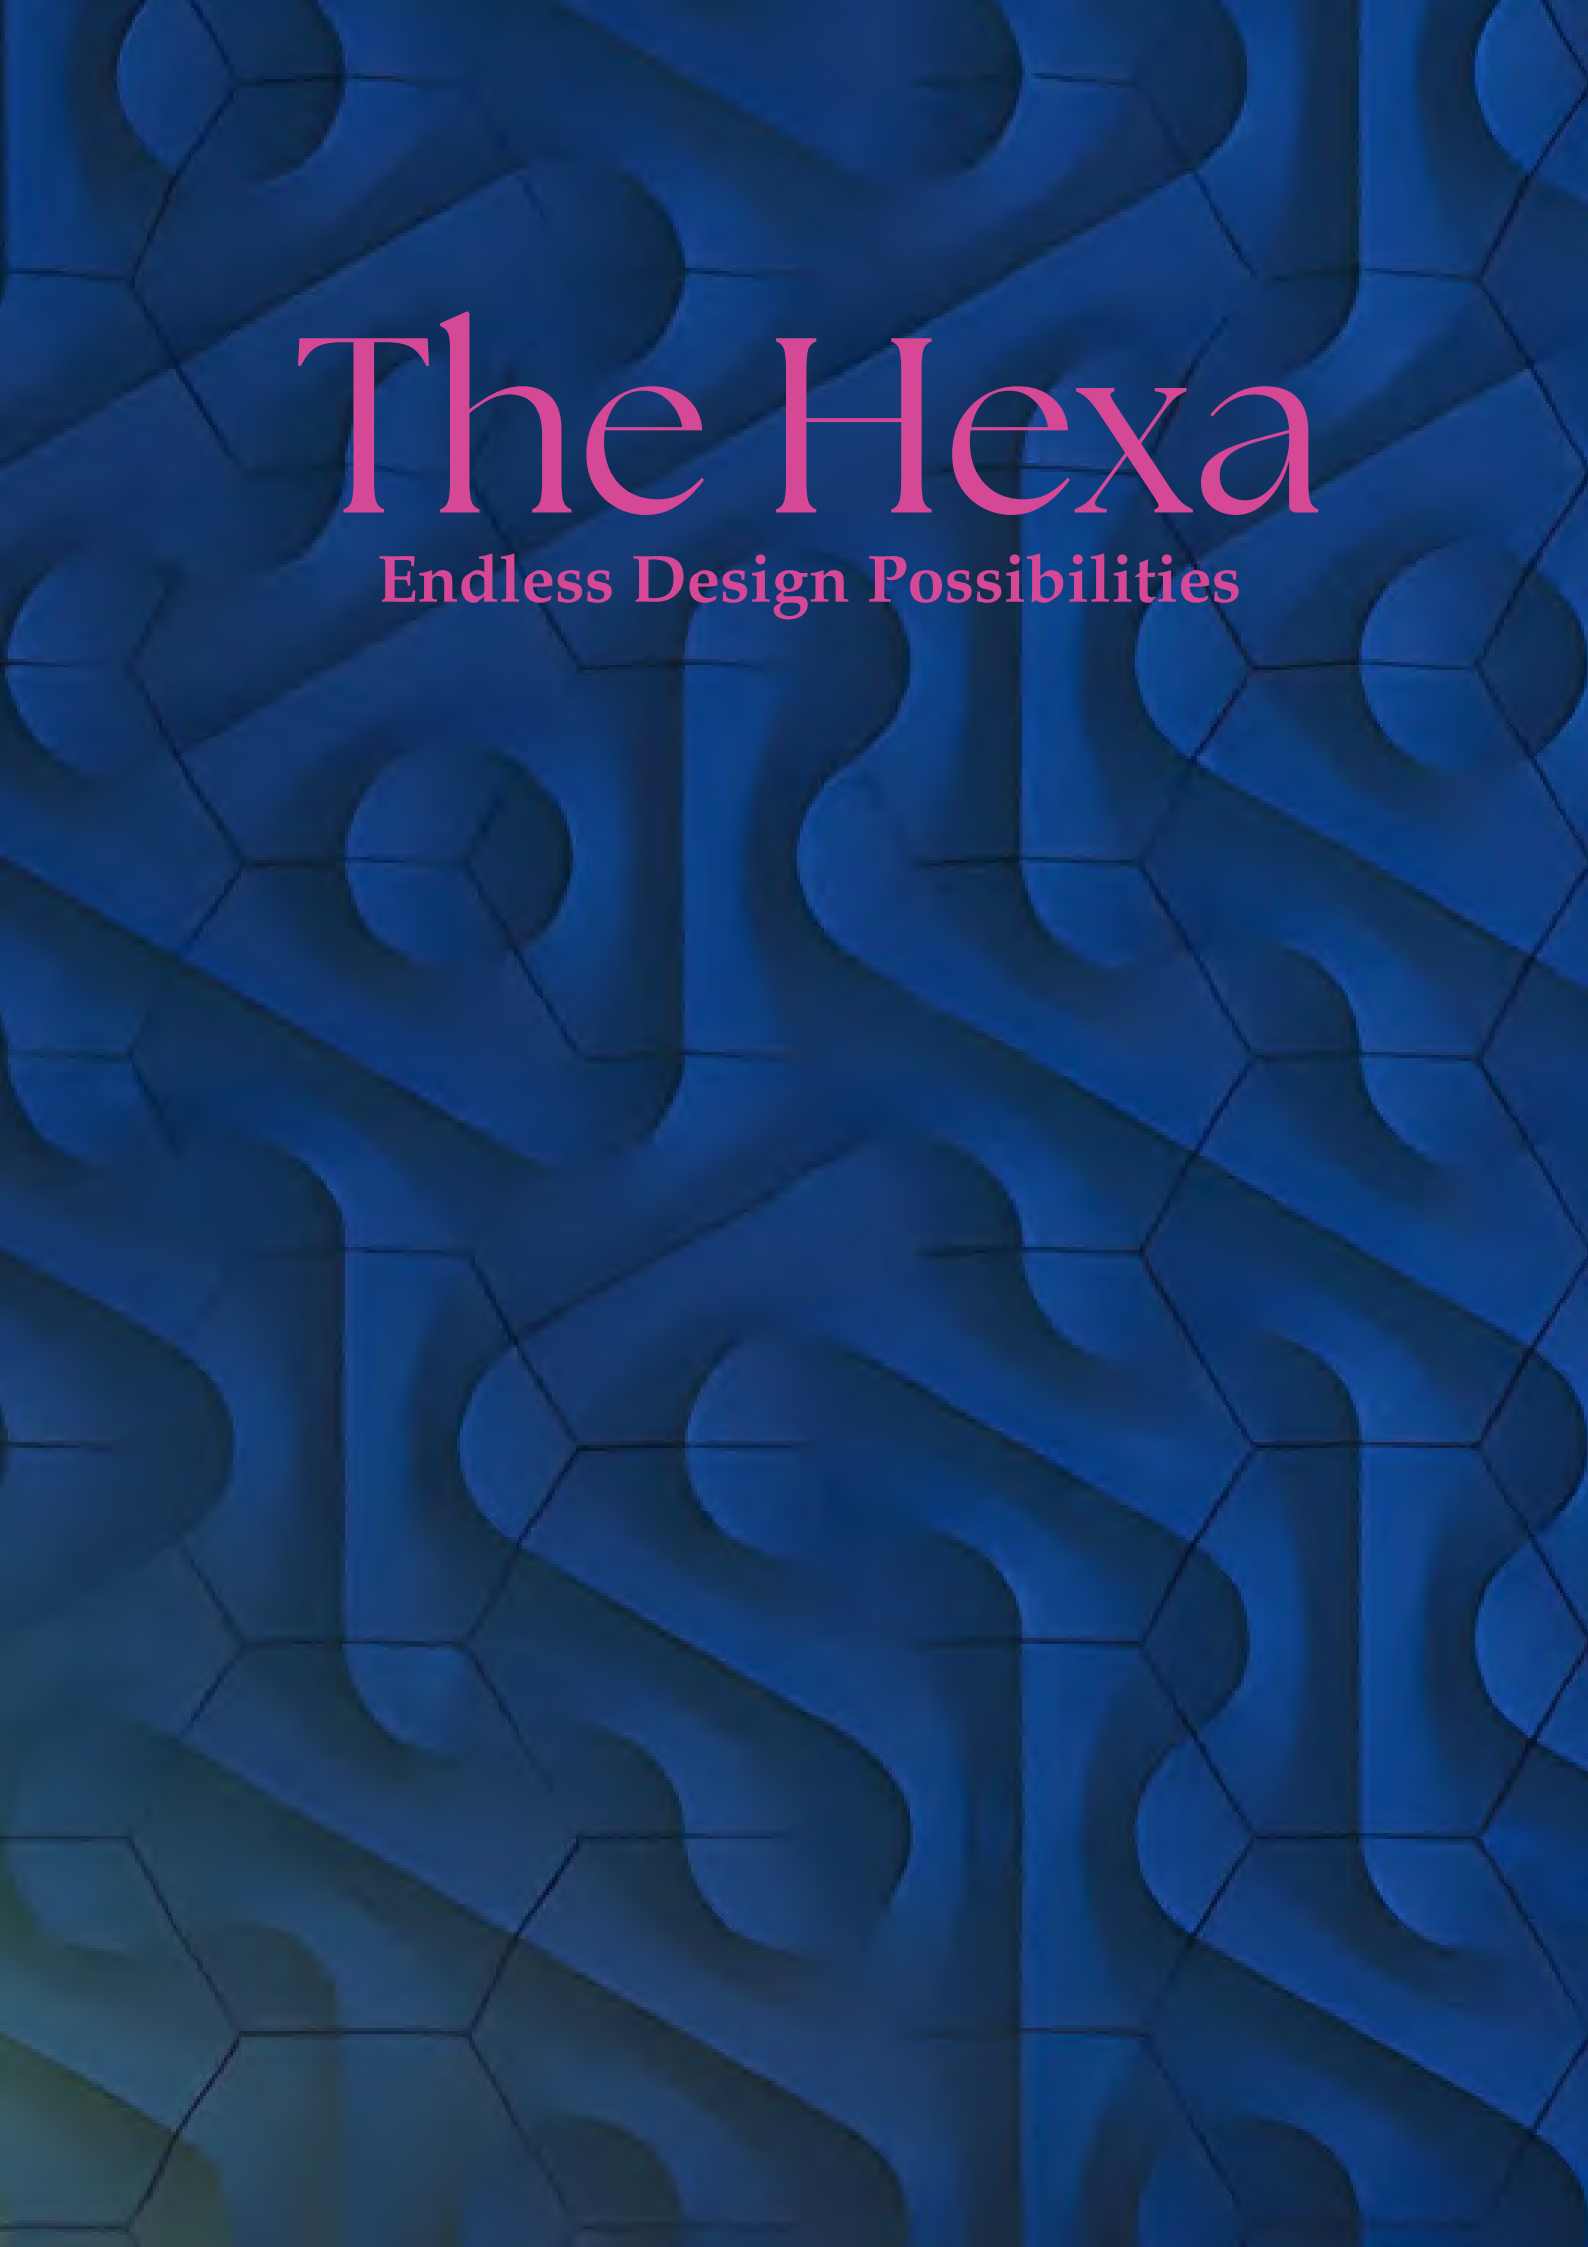

About our Tiles

The Three-dimensional Concrete Tiles give architects & interior designers a rich palette of bespoke design solutions for interiors and exteriors alike.

You can play with depth, light, and geometry to create sculptural surfaces that feel both modern and organic. Each tile is handcrafted, emphasizing artistry and architectural storytelling.

These tiles are hand crafted to perfection and are manufactured using UHPC Concrete. Three-dimensional Concrete Tiles give architects & interior designers a rich palette of bespoke design solutions for interiors and exteriors alike.

The background is a deep blue with a subtle, embossed hexagonal grid. Overlaid on this grid are large, organic, wavy shapes that resemble liquid or flowing water, creating a complex, layered visual effect. The text is centered in the upper half of the image.

The Hexa

Endless Design Possibilities

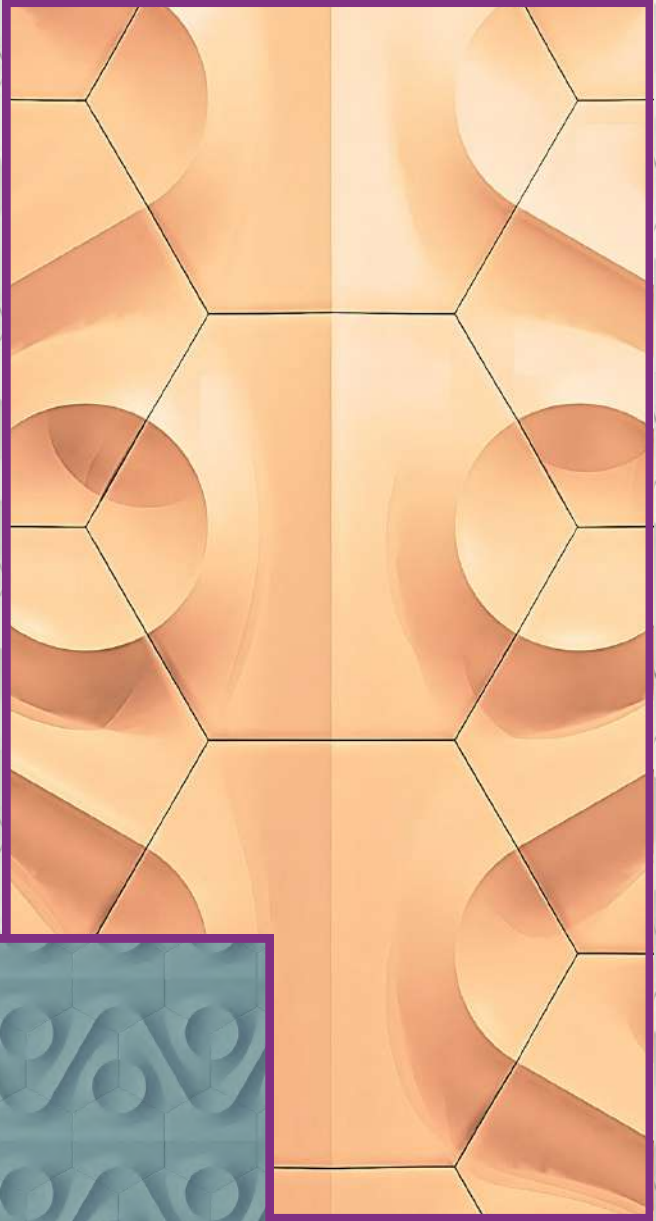

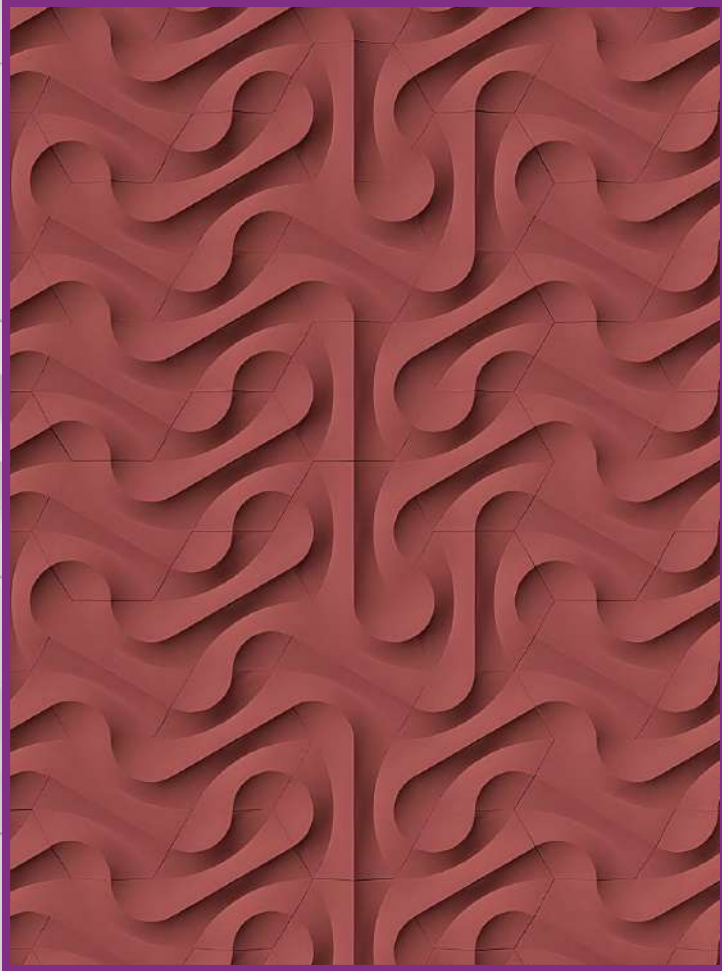

Endless Possibilities The Hexa

Inspired by the timeless hexagon, Hexa 3D tiles bring a modern edge to classic form. Each tile features angular contours that rise and recess, creating a rhythmic interplay of light and shadow across the surface.

The Flick

Minimalistic Elegance

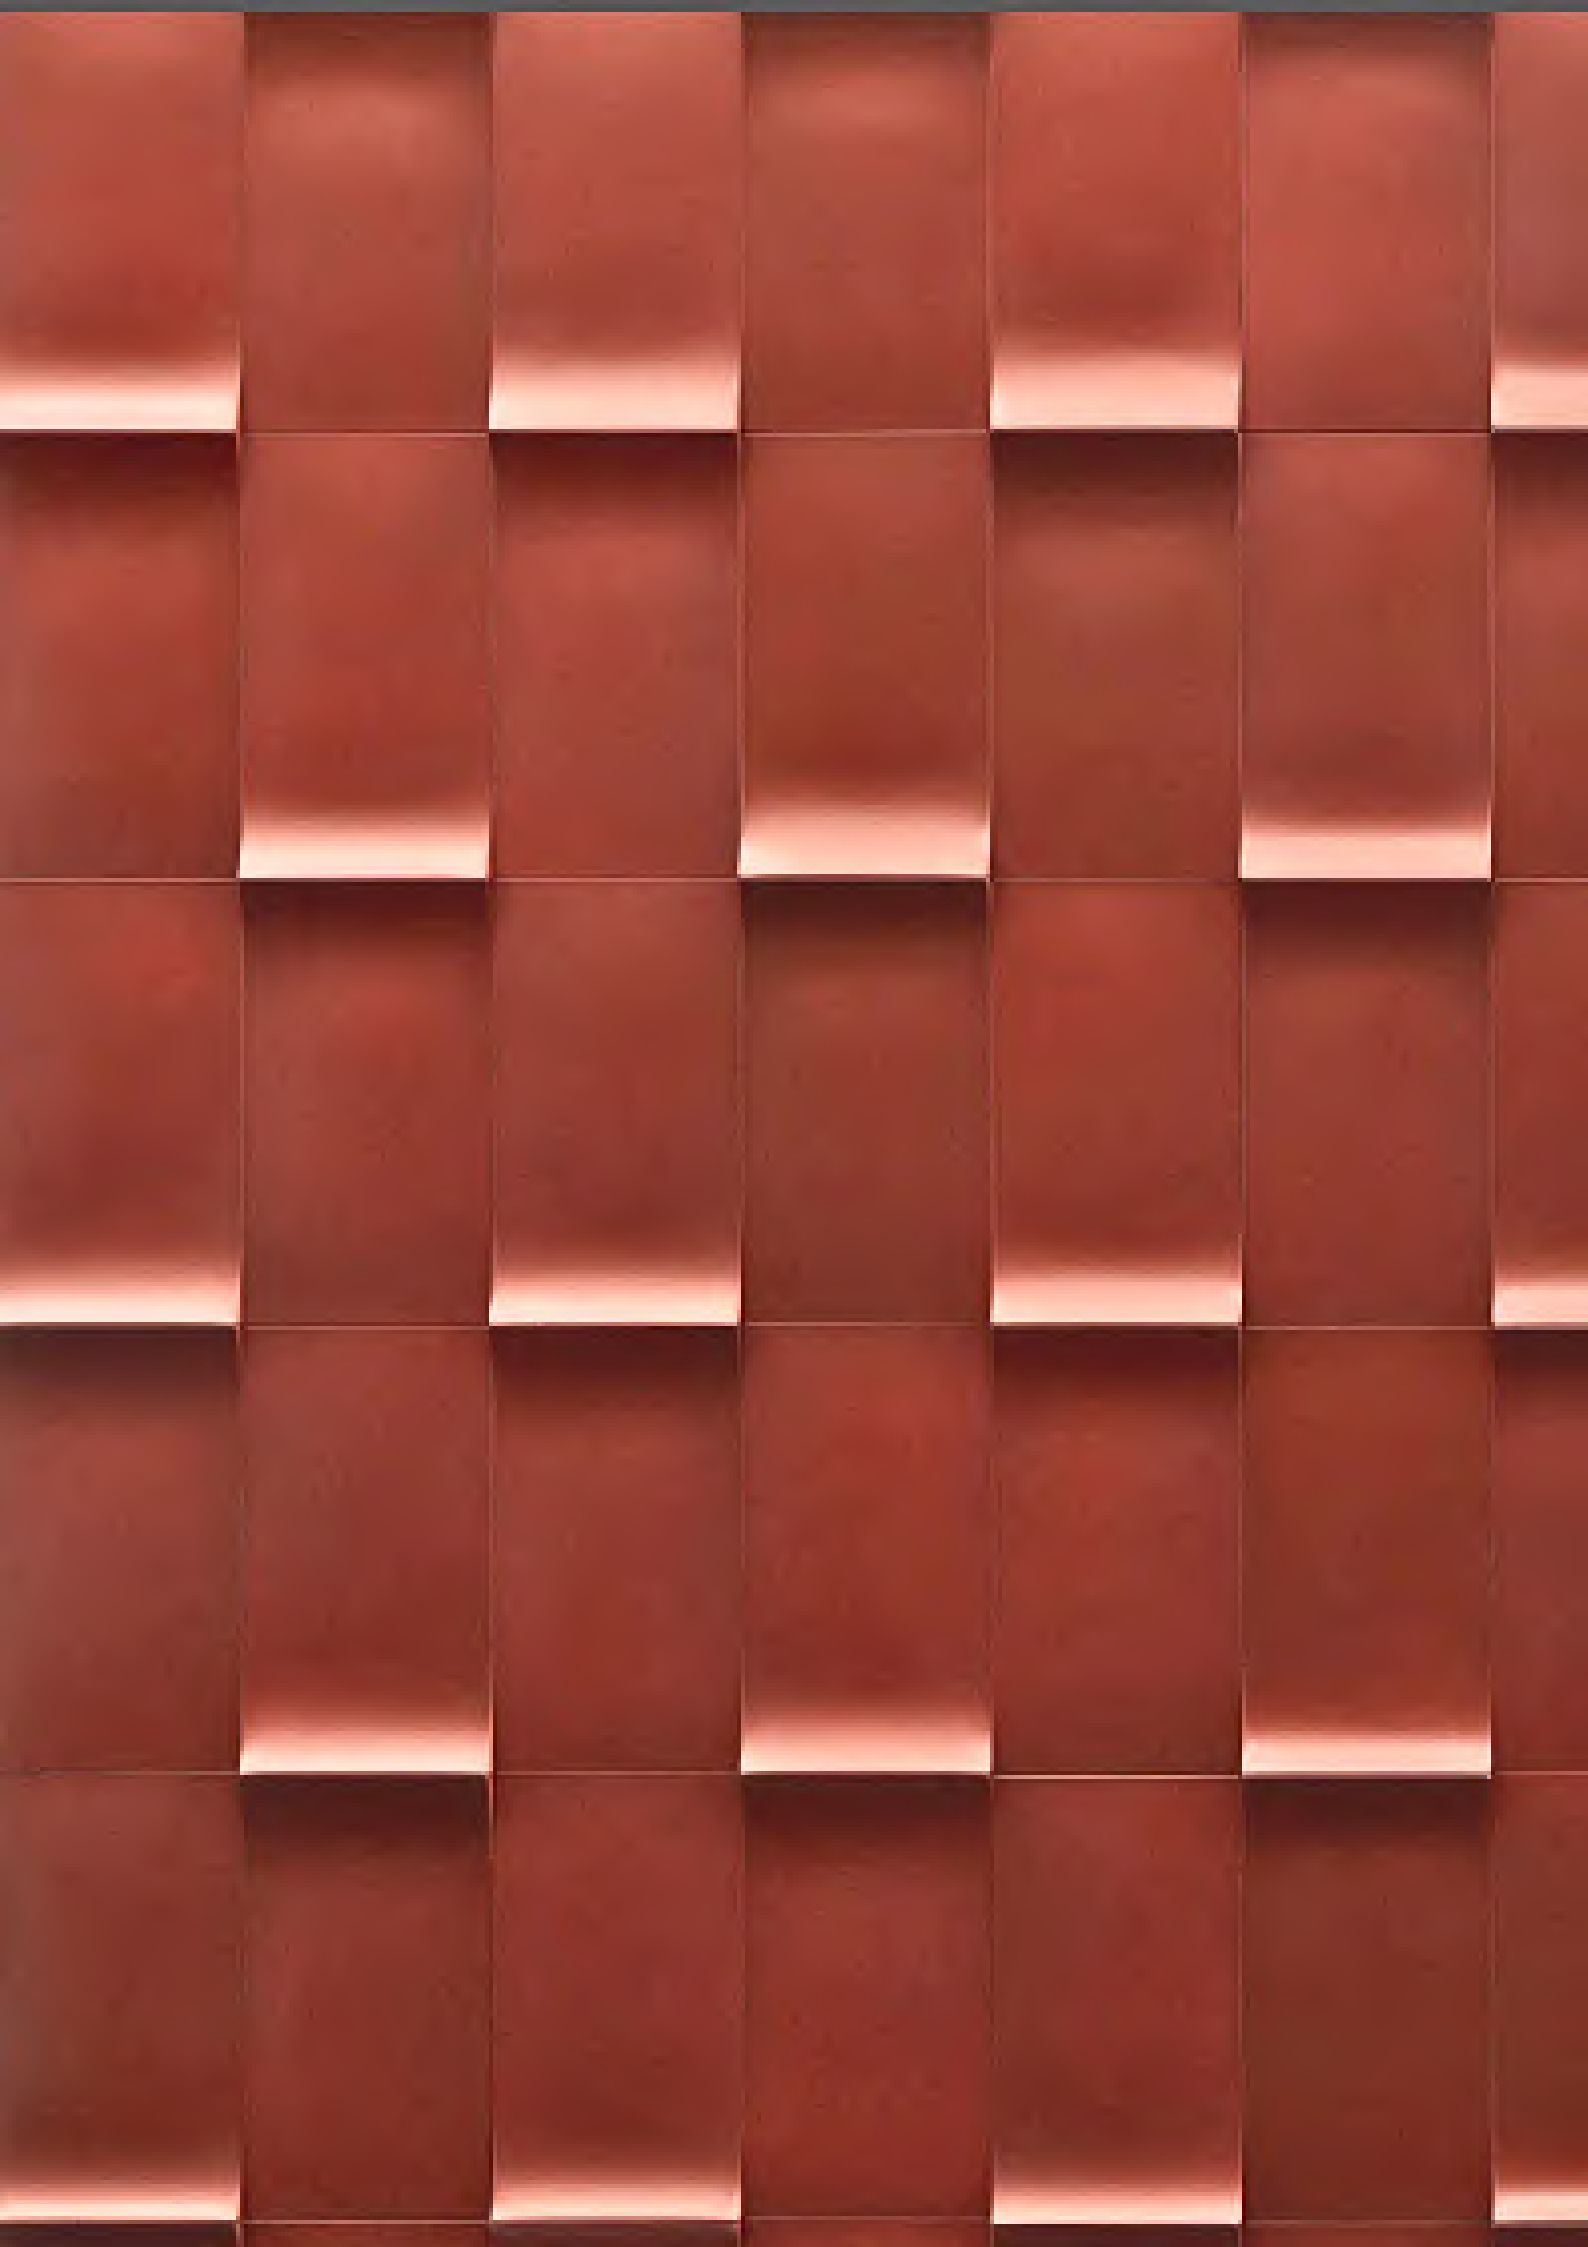

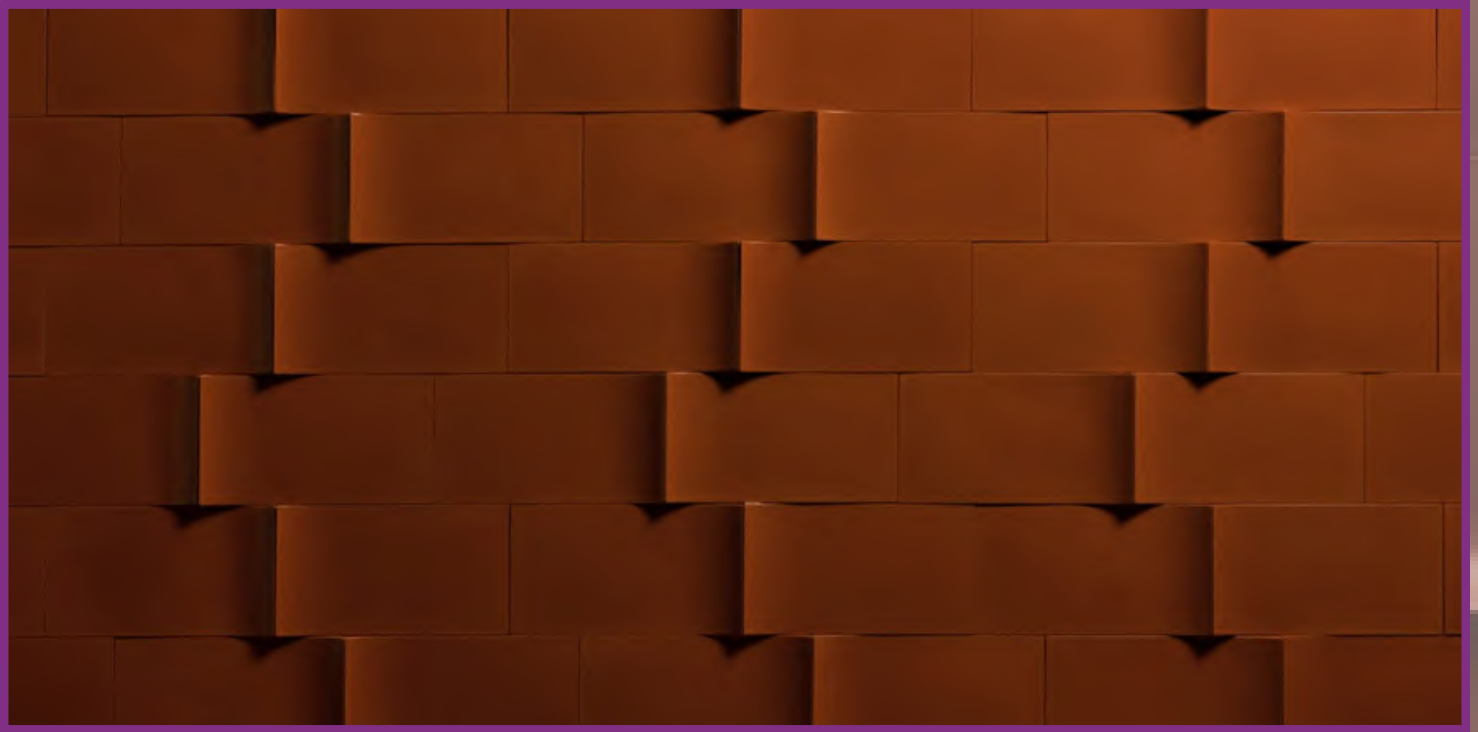

Minimalistic Elegance The Flick

Flick transforms spatial perception through a nuanced shift in dimension, seamlessly integrating into its surroundings to redefine the ambiance.

This singular rectangular tile features a gentle concave curve on one end and a smooth, flat surface on the other.

The Versatile Arc

Sculptural Versatility

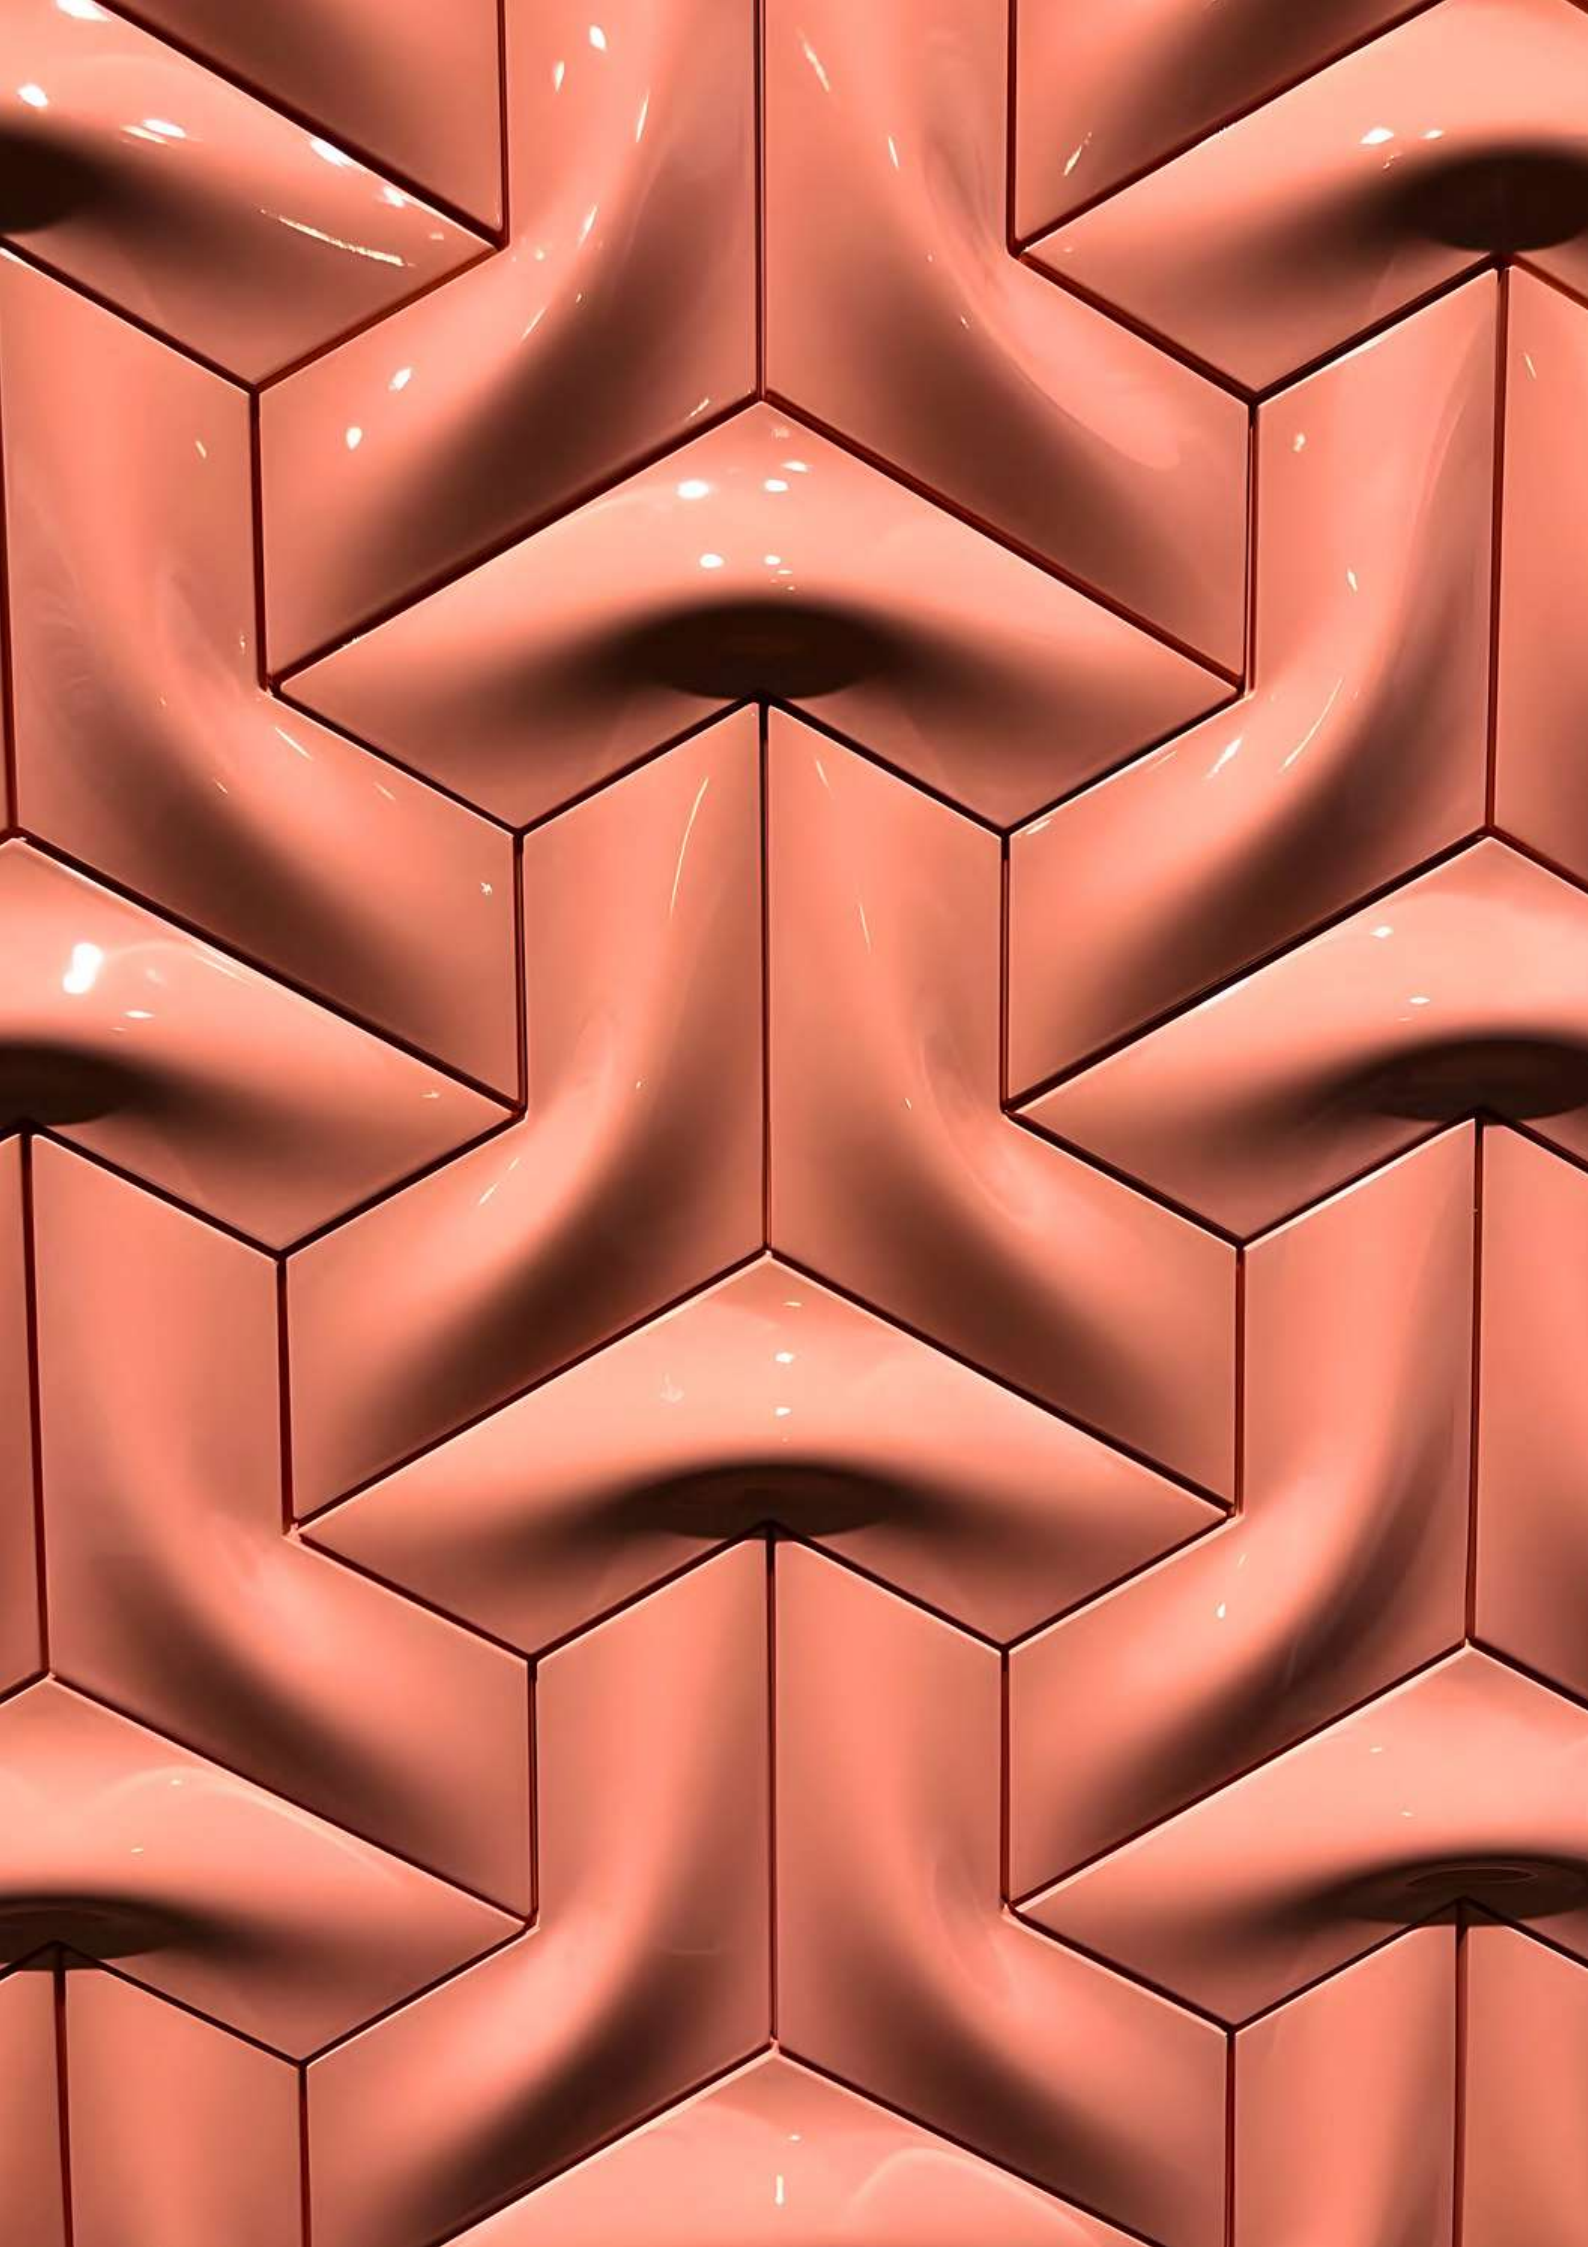

Sculptural Versatility The Versatile Arc

With their graceful curvature and clean geometry, Arc tiles bring depth, movement, and quiet sophistication to architectural surfaces.

Each tile features a gently bowed profile, softening the rigidity of traditional walls while introducing a subtle play of light and shadow.

The Flow

Liquid serenity, solidified

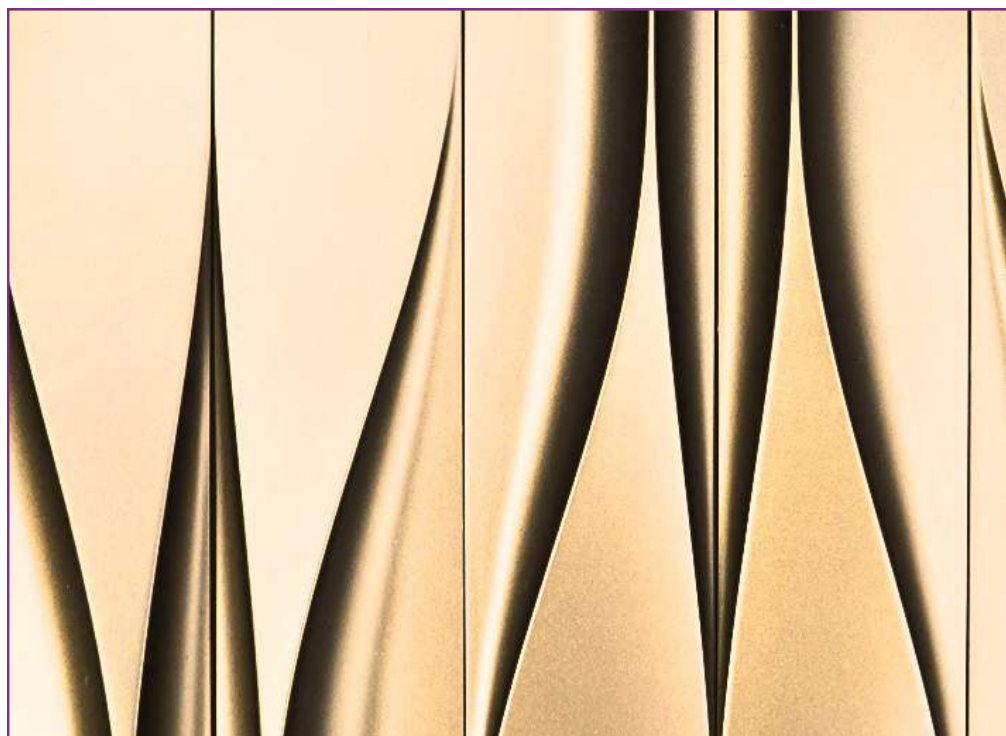

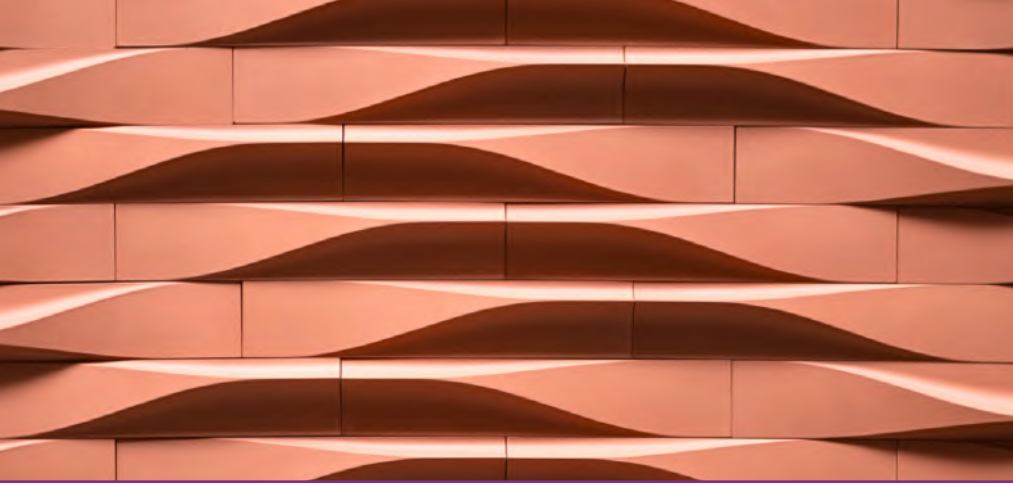

Fluidity, captured. The Flow

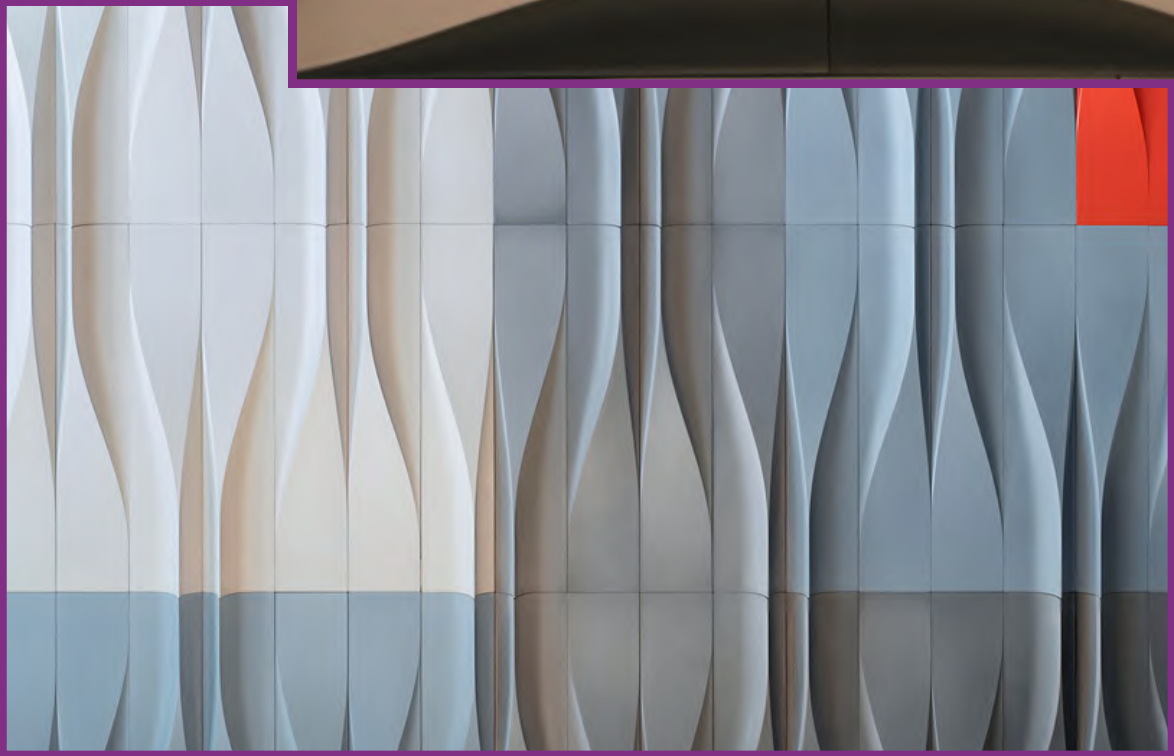

is inspired by the transformative nature of concrete itself—specifically its transition from liquid to solid state.

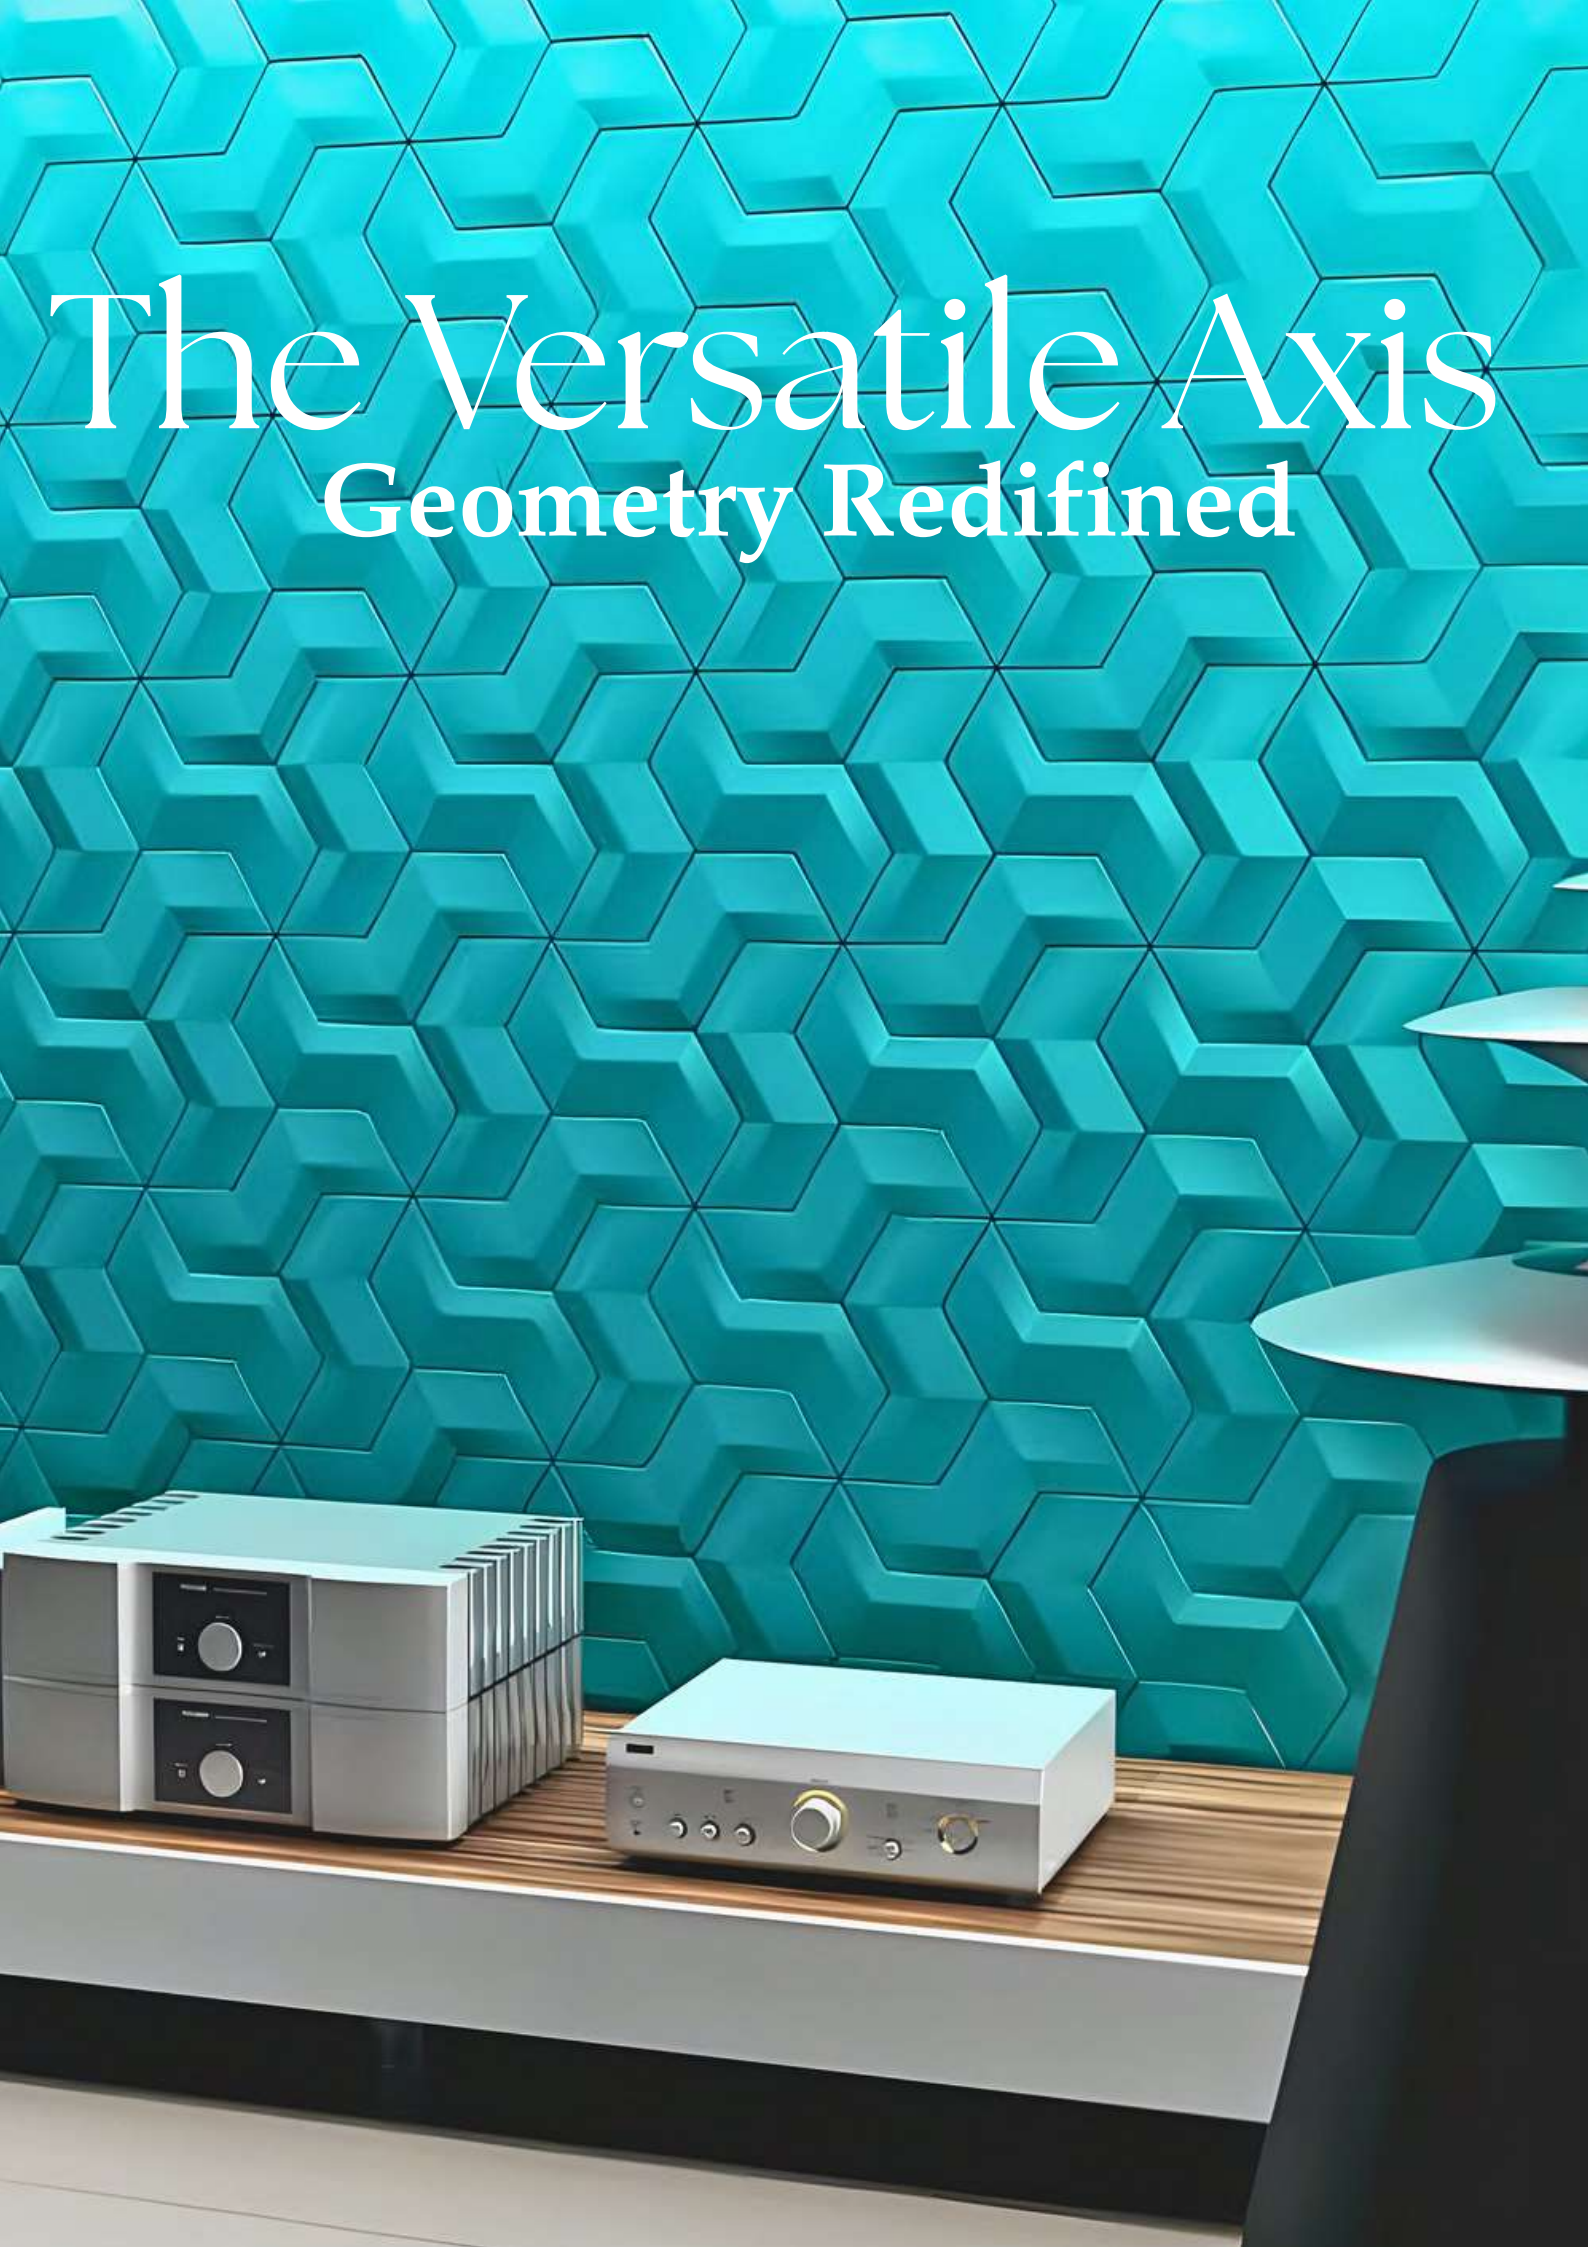

The Flow 3D tiles are a poetic blend of architecture and art—ideal for designers seeking rhythm and elegance in surface design.

The Versatile Axis

Geometry Redefined

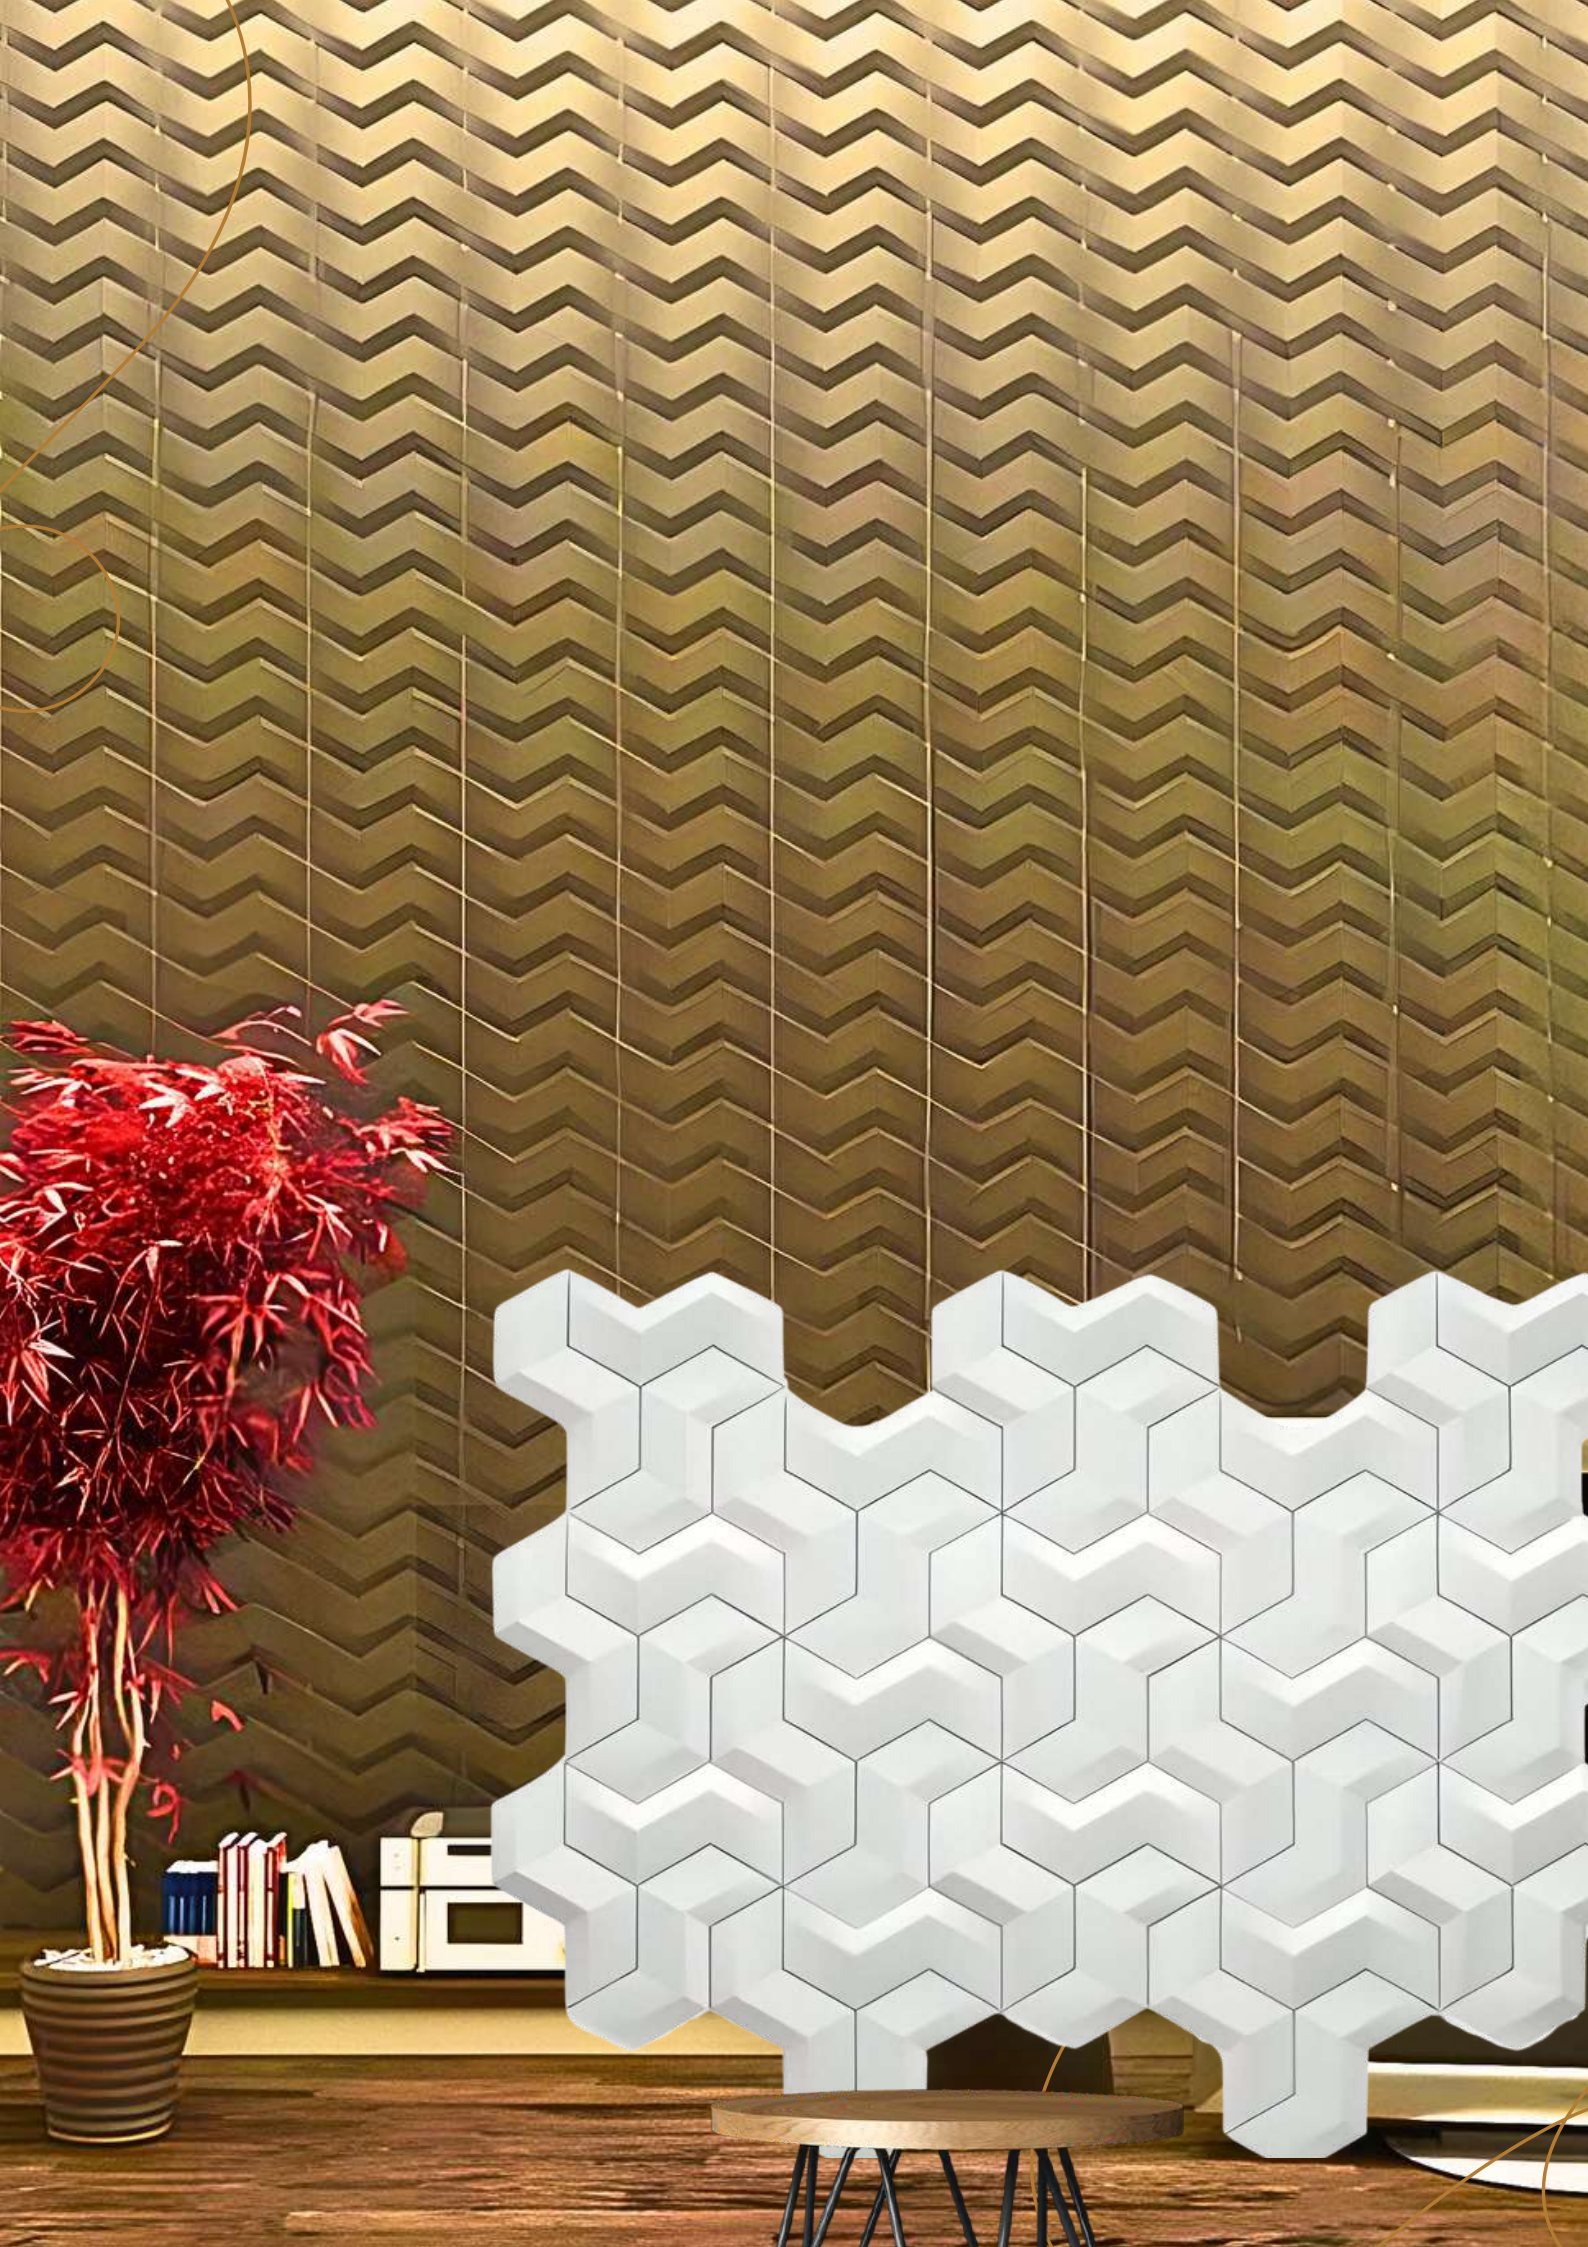

Linear Elegance The Versatile Axis

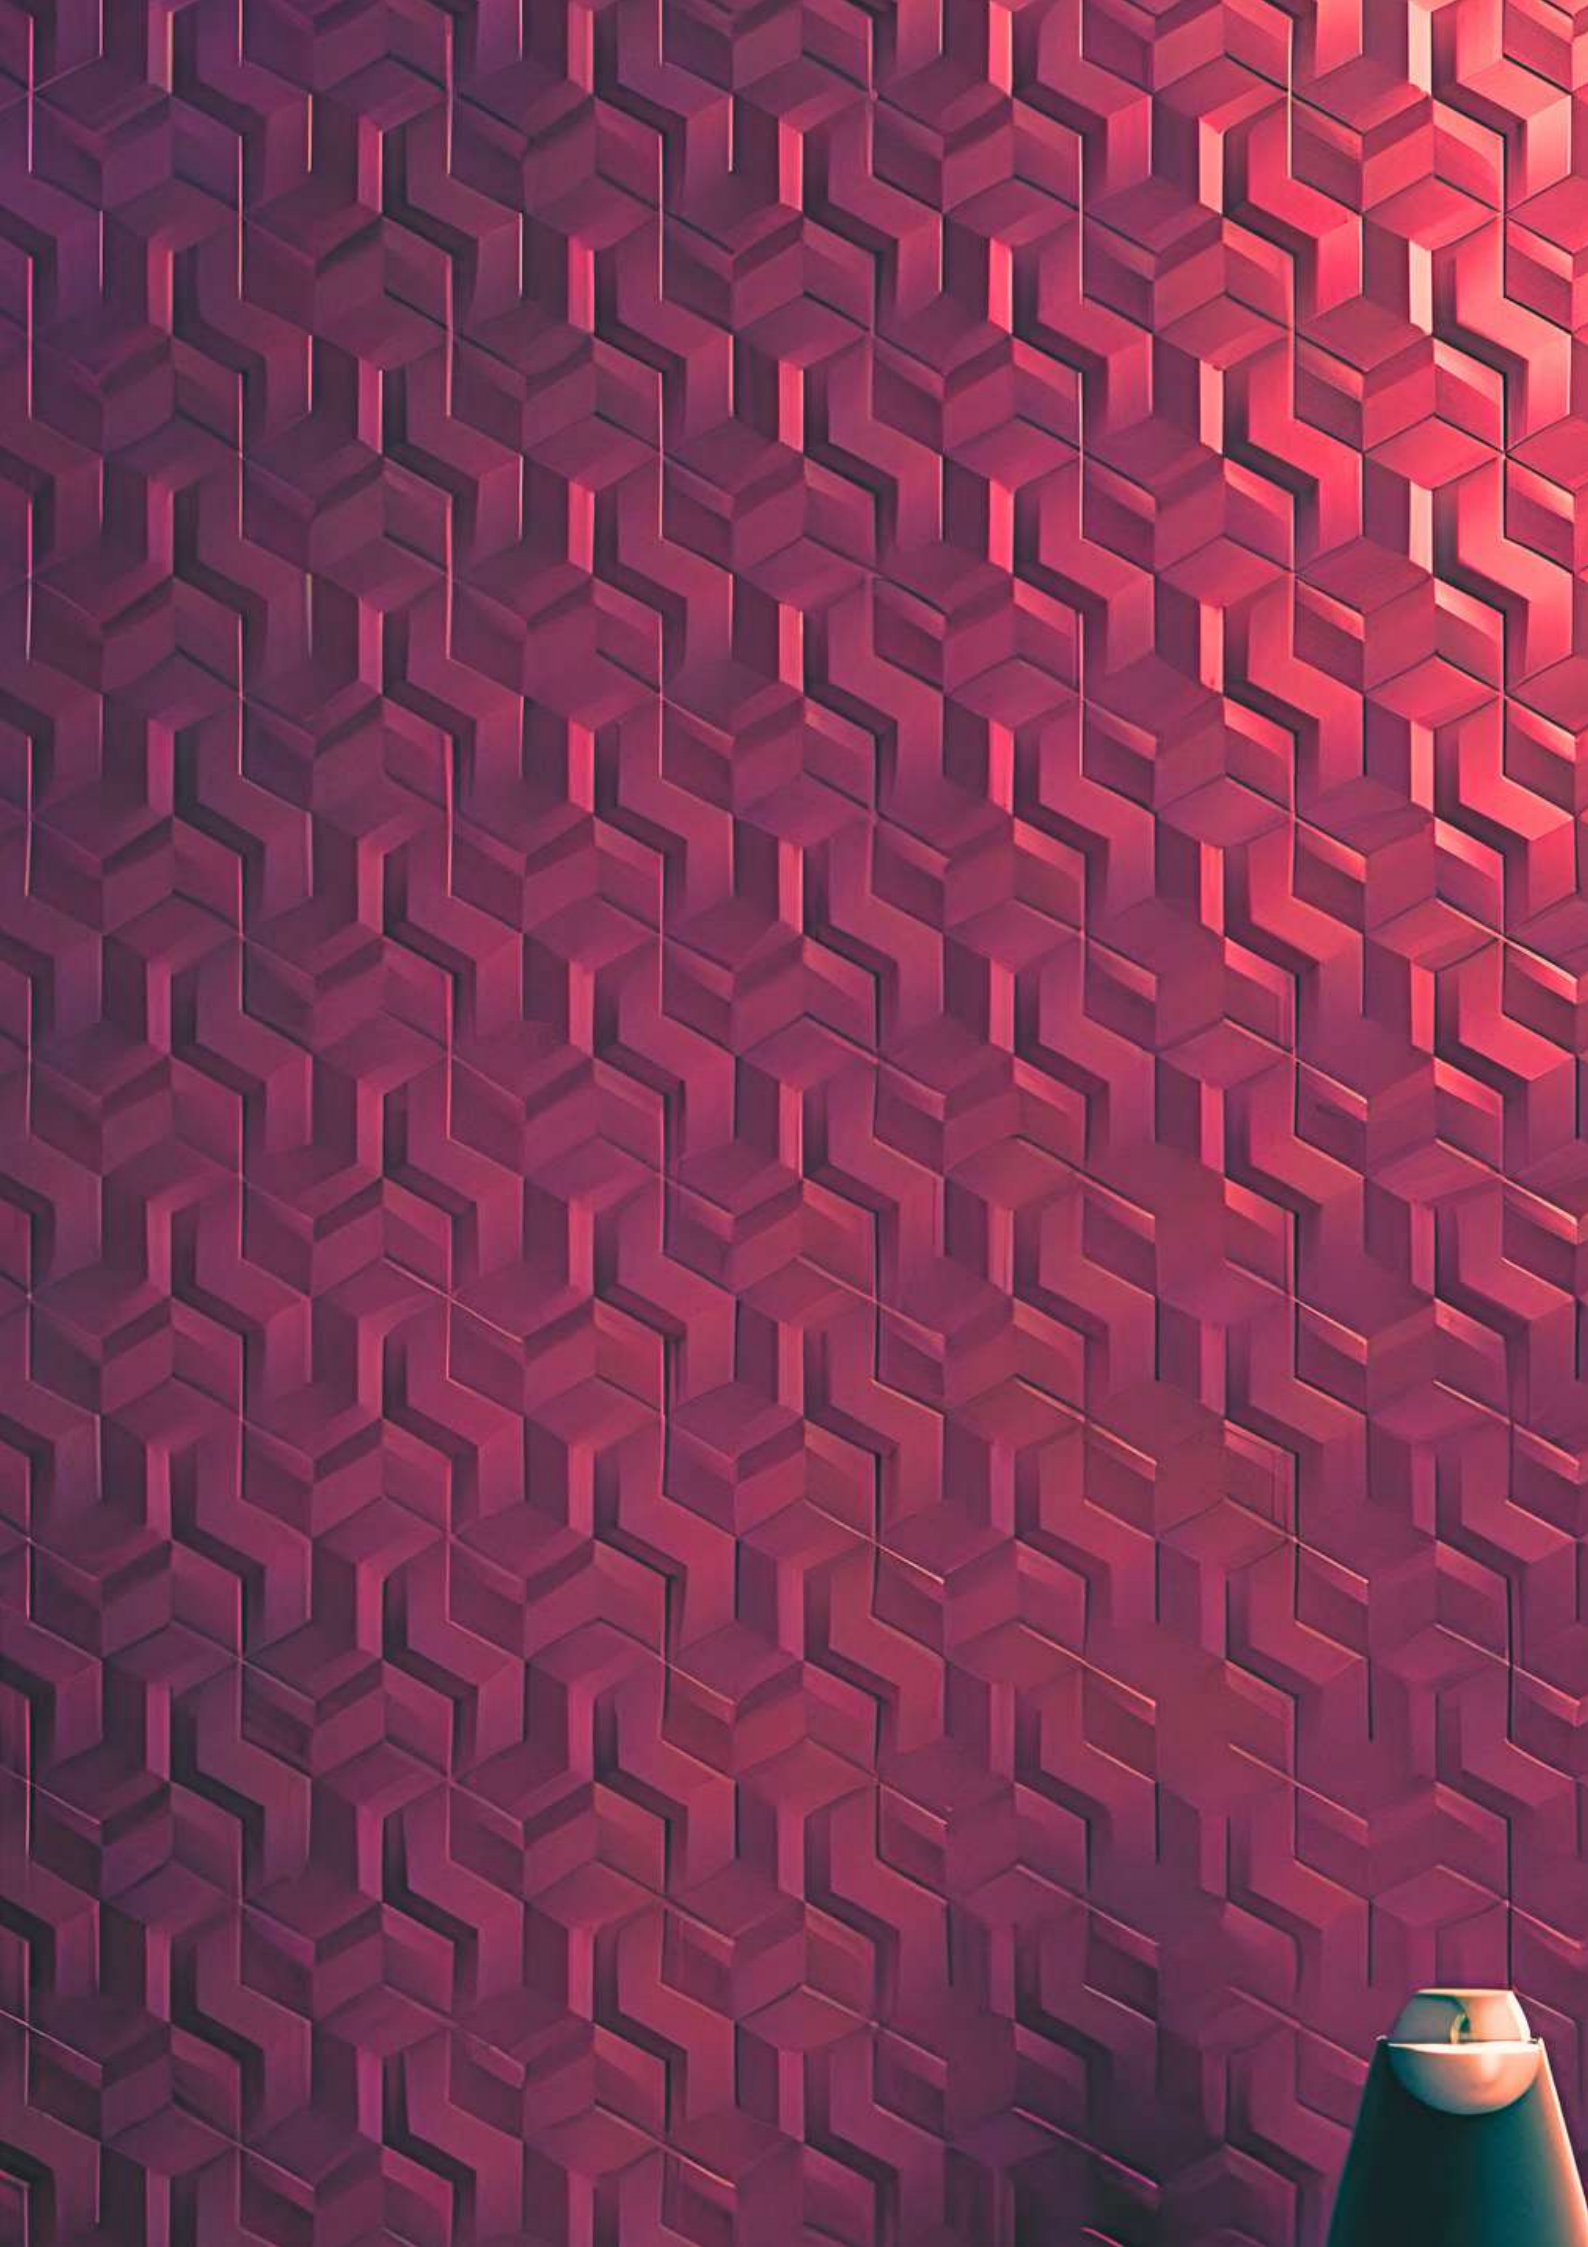

Axis reimagines minimalism with angular precision and subtle depth. Each tile features a crisp geometry that plays with light, creating patterns that shift as perspectives change.

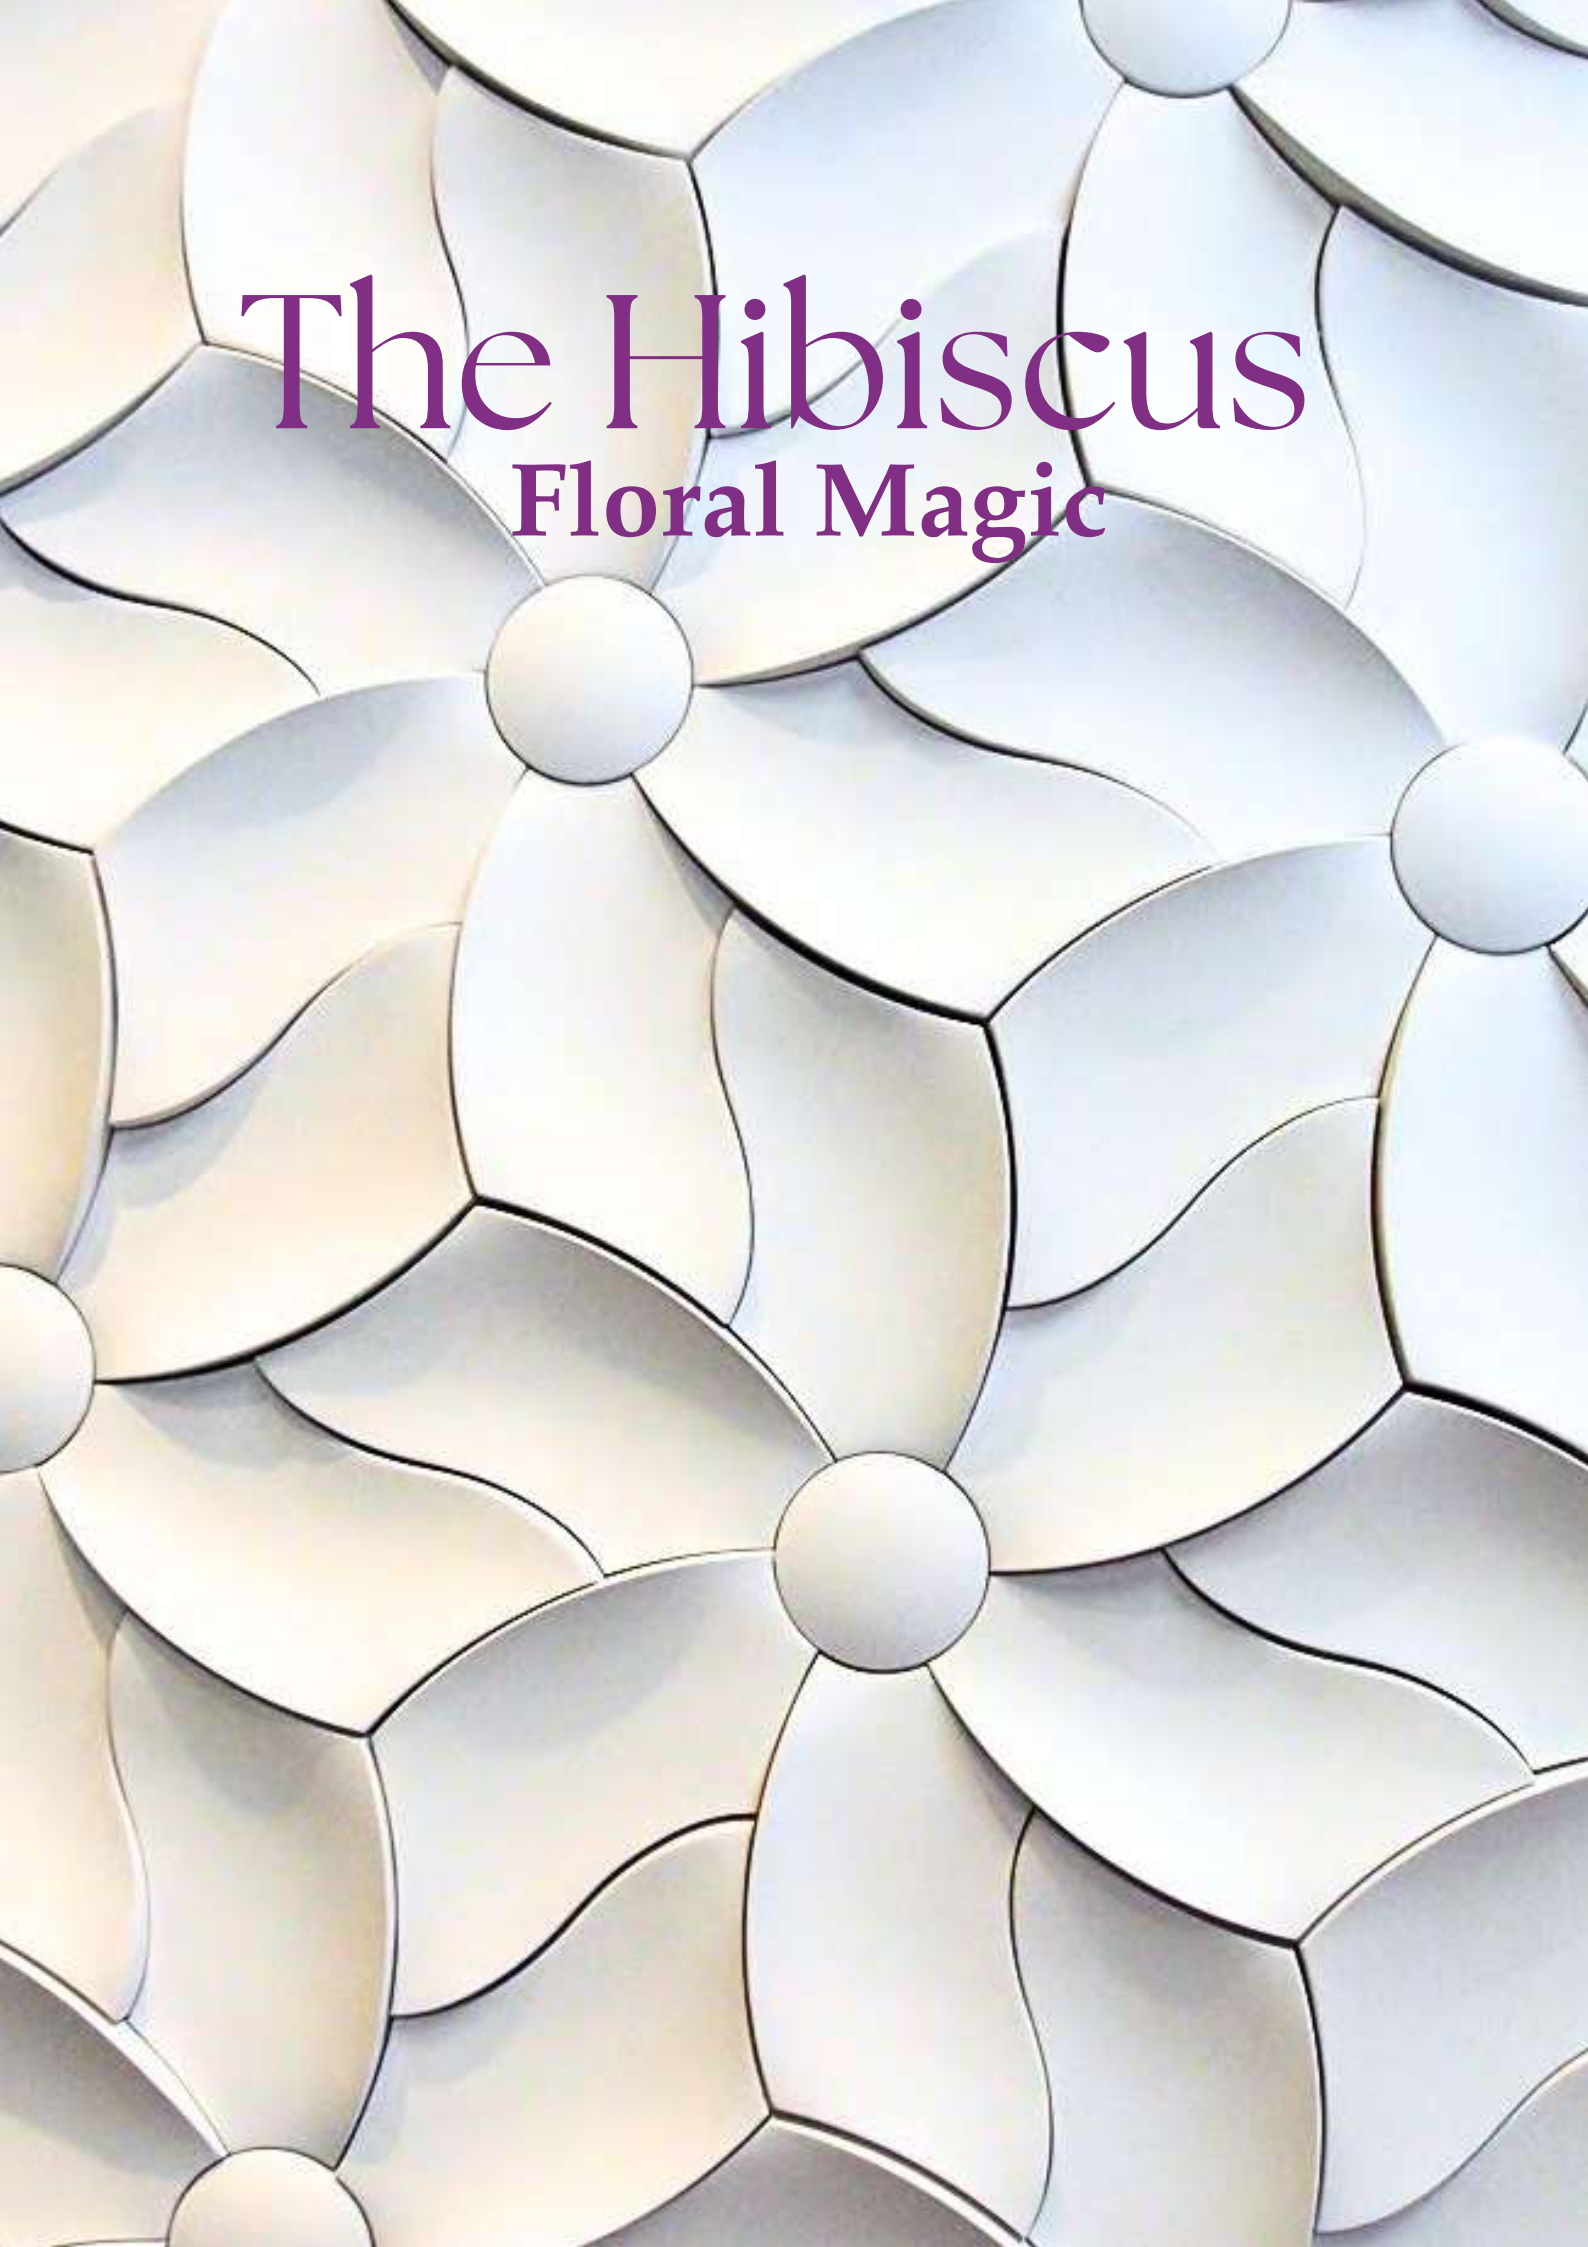

Designed for modular creativity, Axis lends itself to both uniform repetition and expressive layouts

The Hibiscus

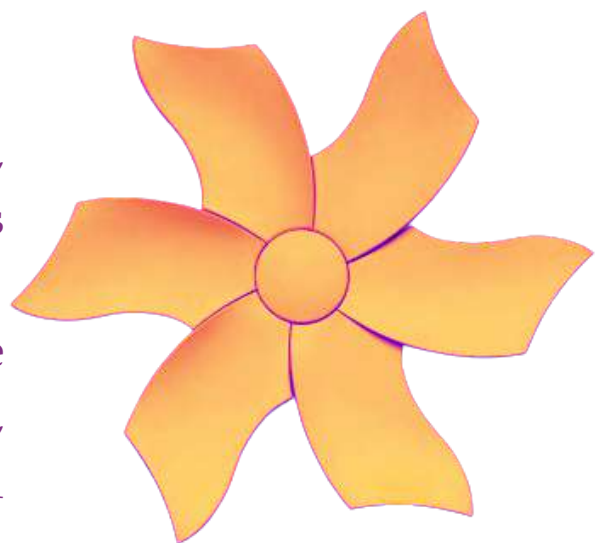

Floral Magic

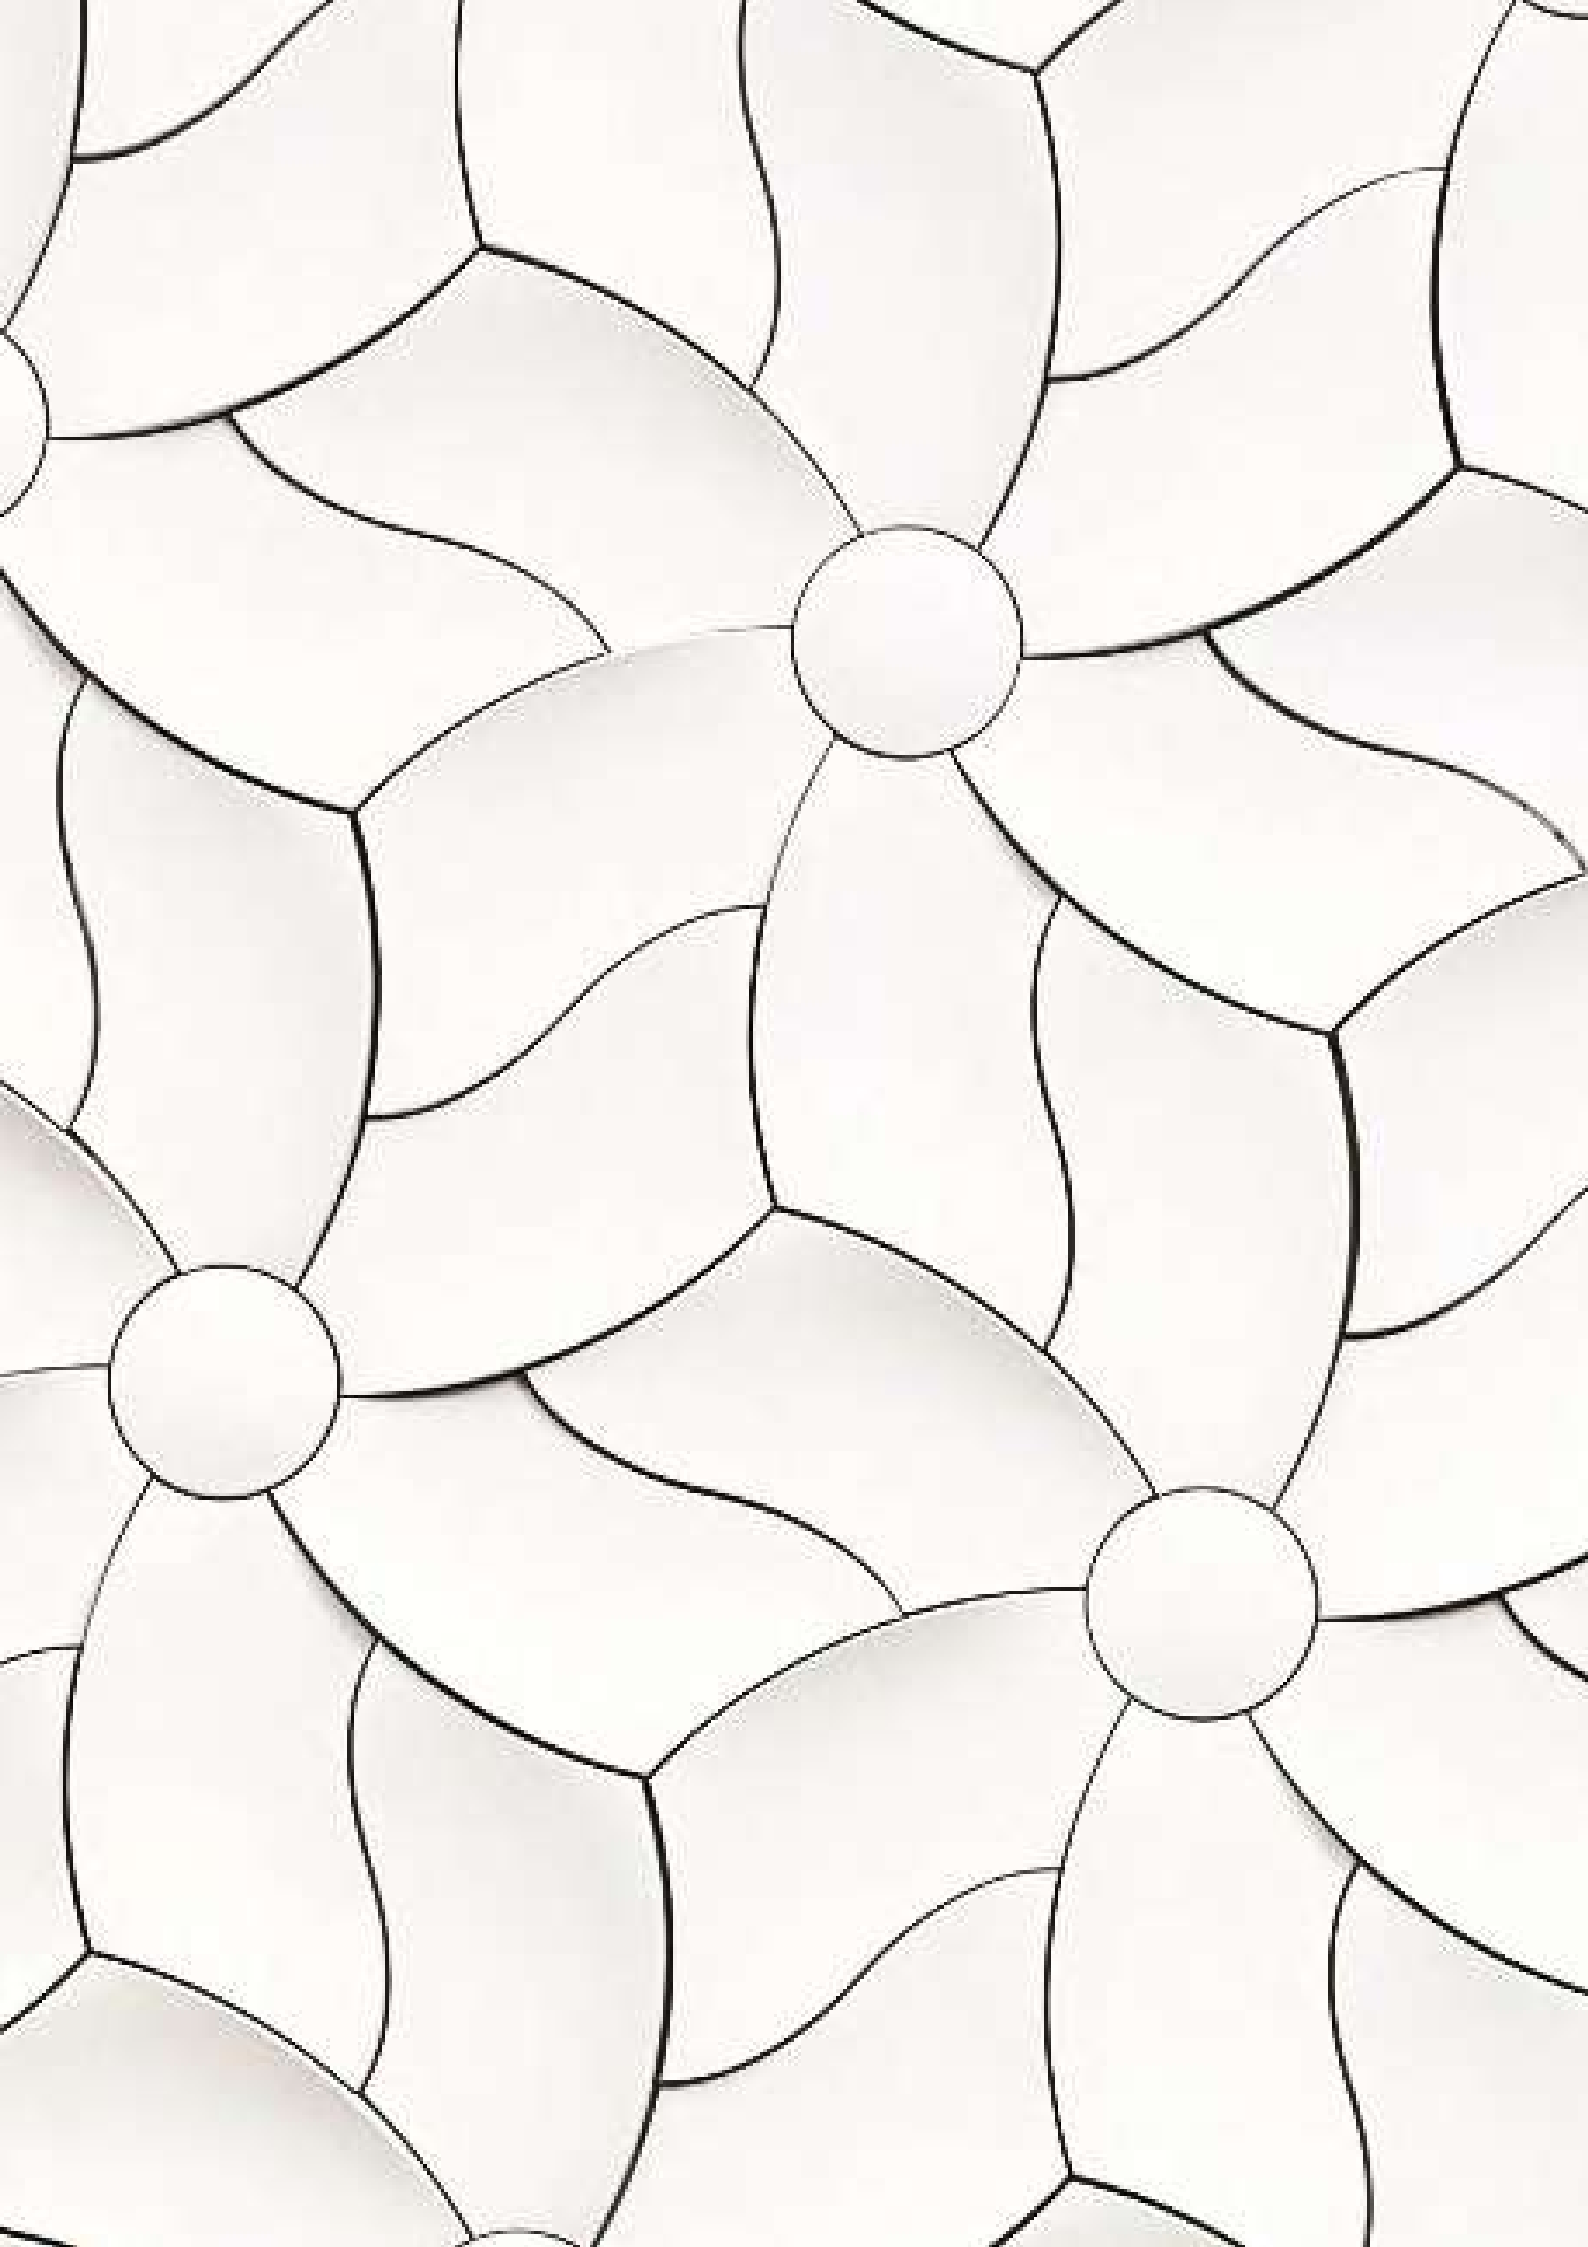

Inspired by Nature The Hibiscus

inspired by the soft geometry of nature, Hibiscus 3D tiles bloom across surfaces with sculptural fluidity.

Each tile features a gentle, petal-like contour that catches light & shadow, creating a tactile landscape of depth and motion.

The Diamond

Designs are Forever

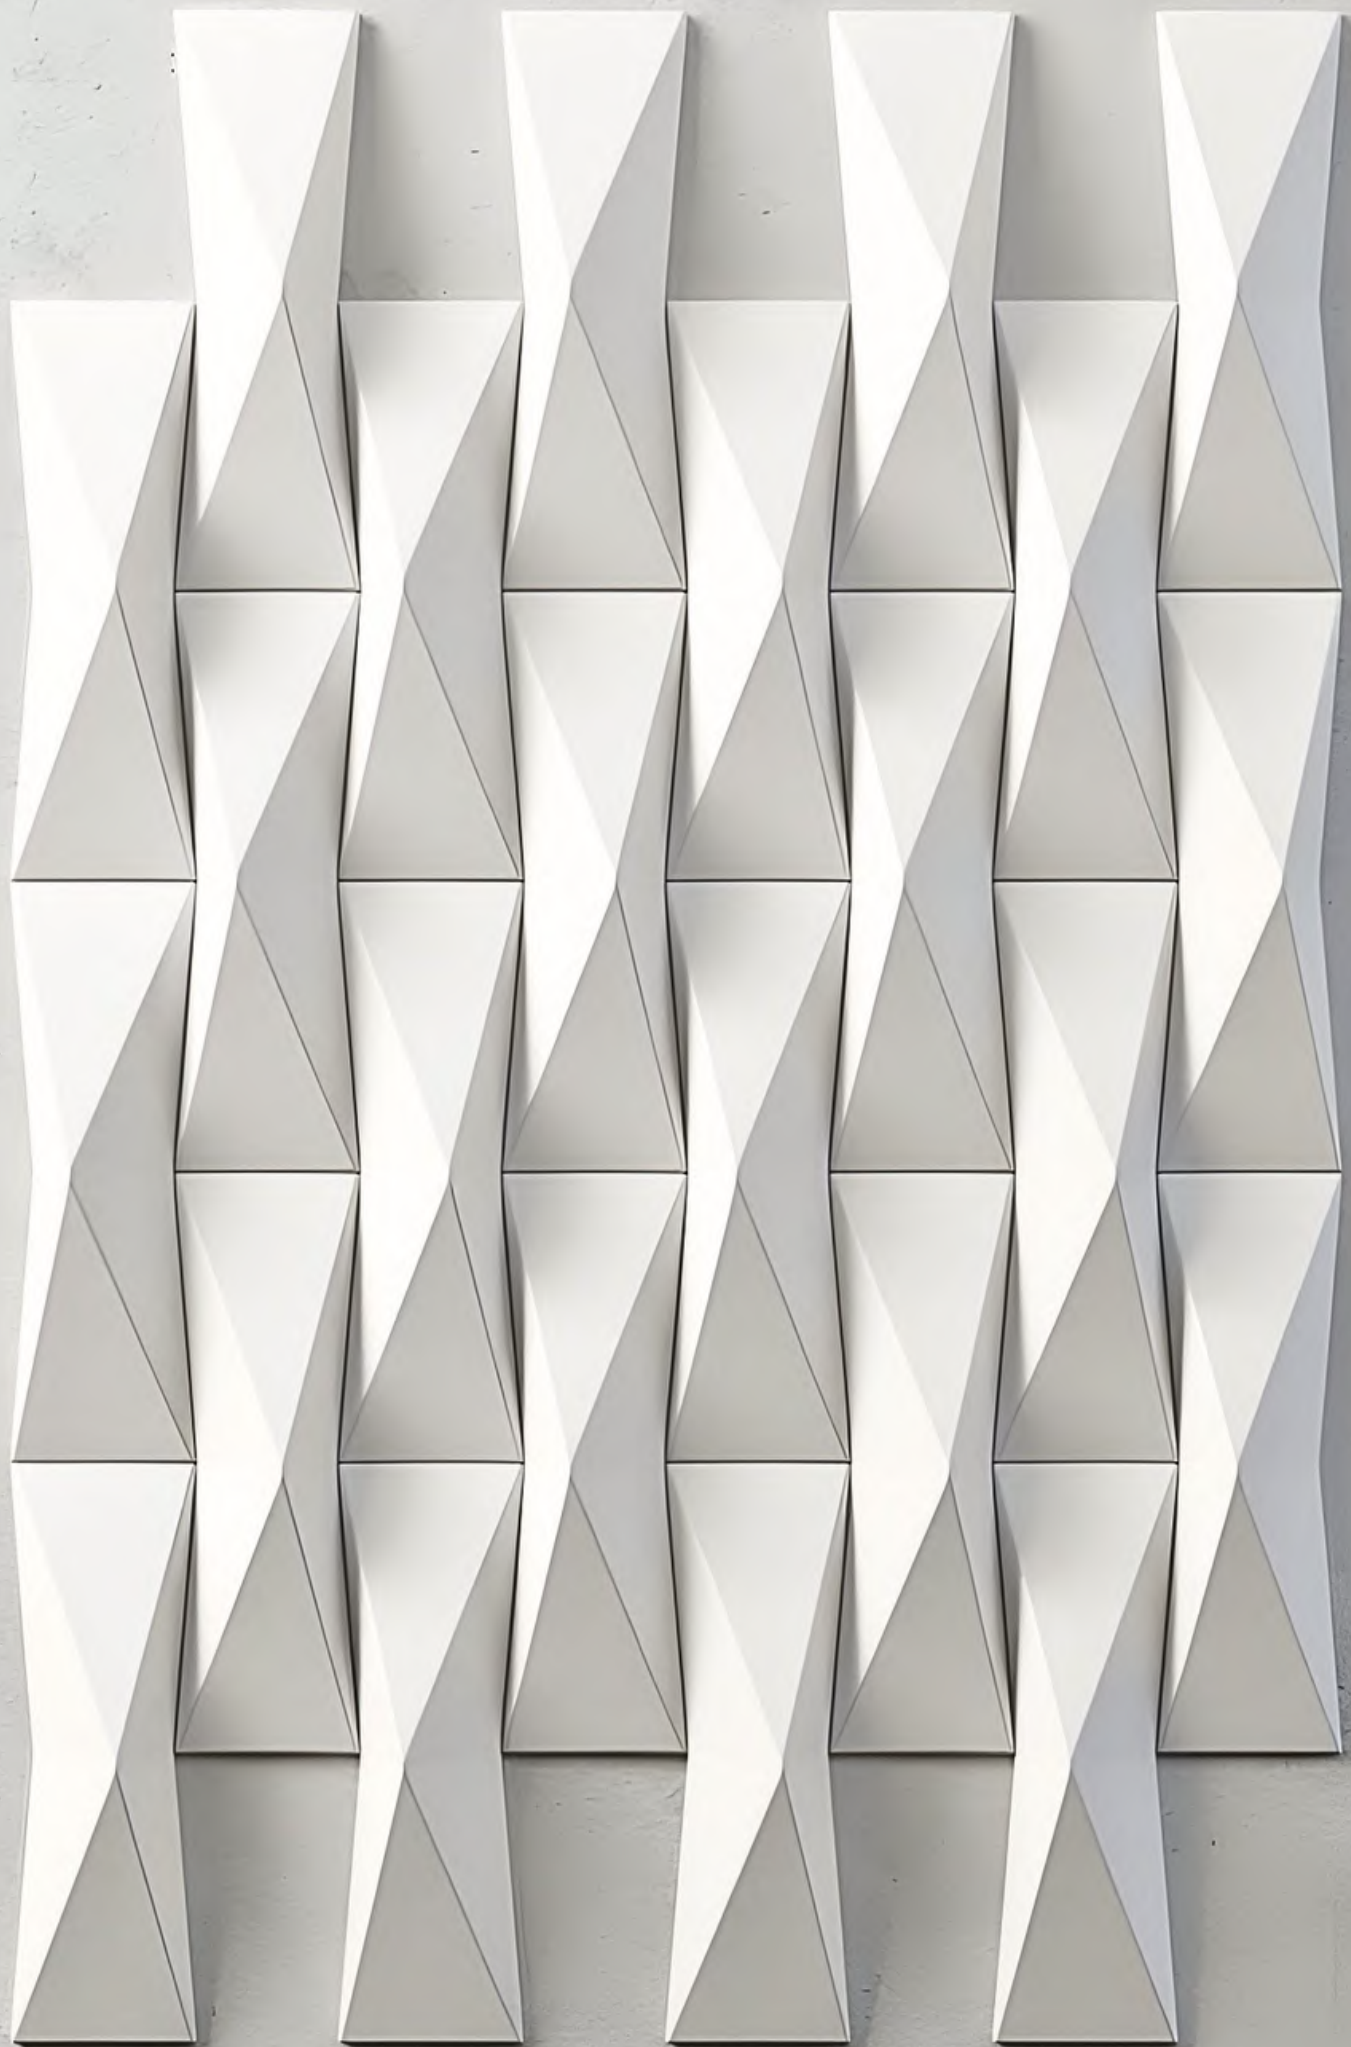

Geometry, Amplified The Diamond

Inspired by crystalline geometry, Diamond 3D tiles bring angular drama and refined depth to contemporary surfaces. Each tile features a multi-faceted relief that interacts with light, casting shifting shadows and highlights that change with every angle.

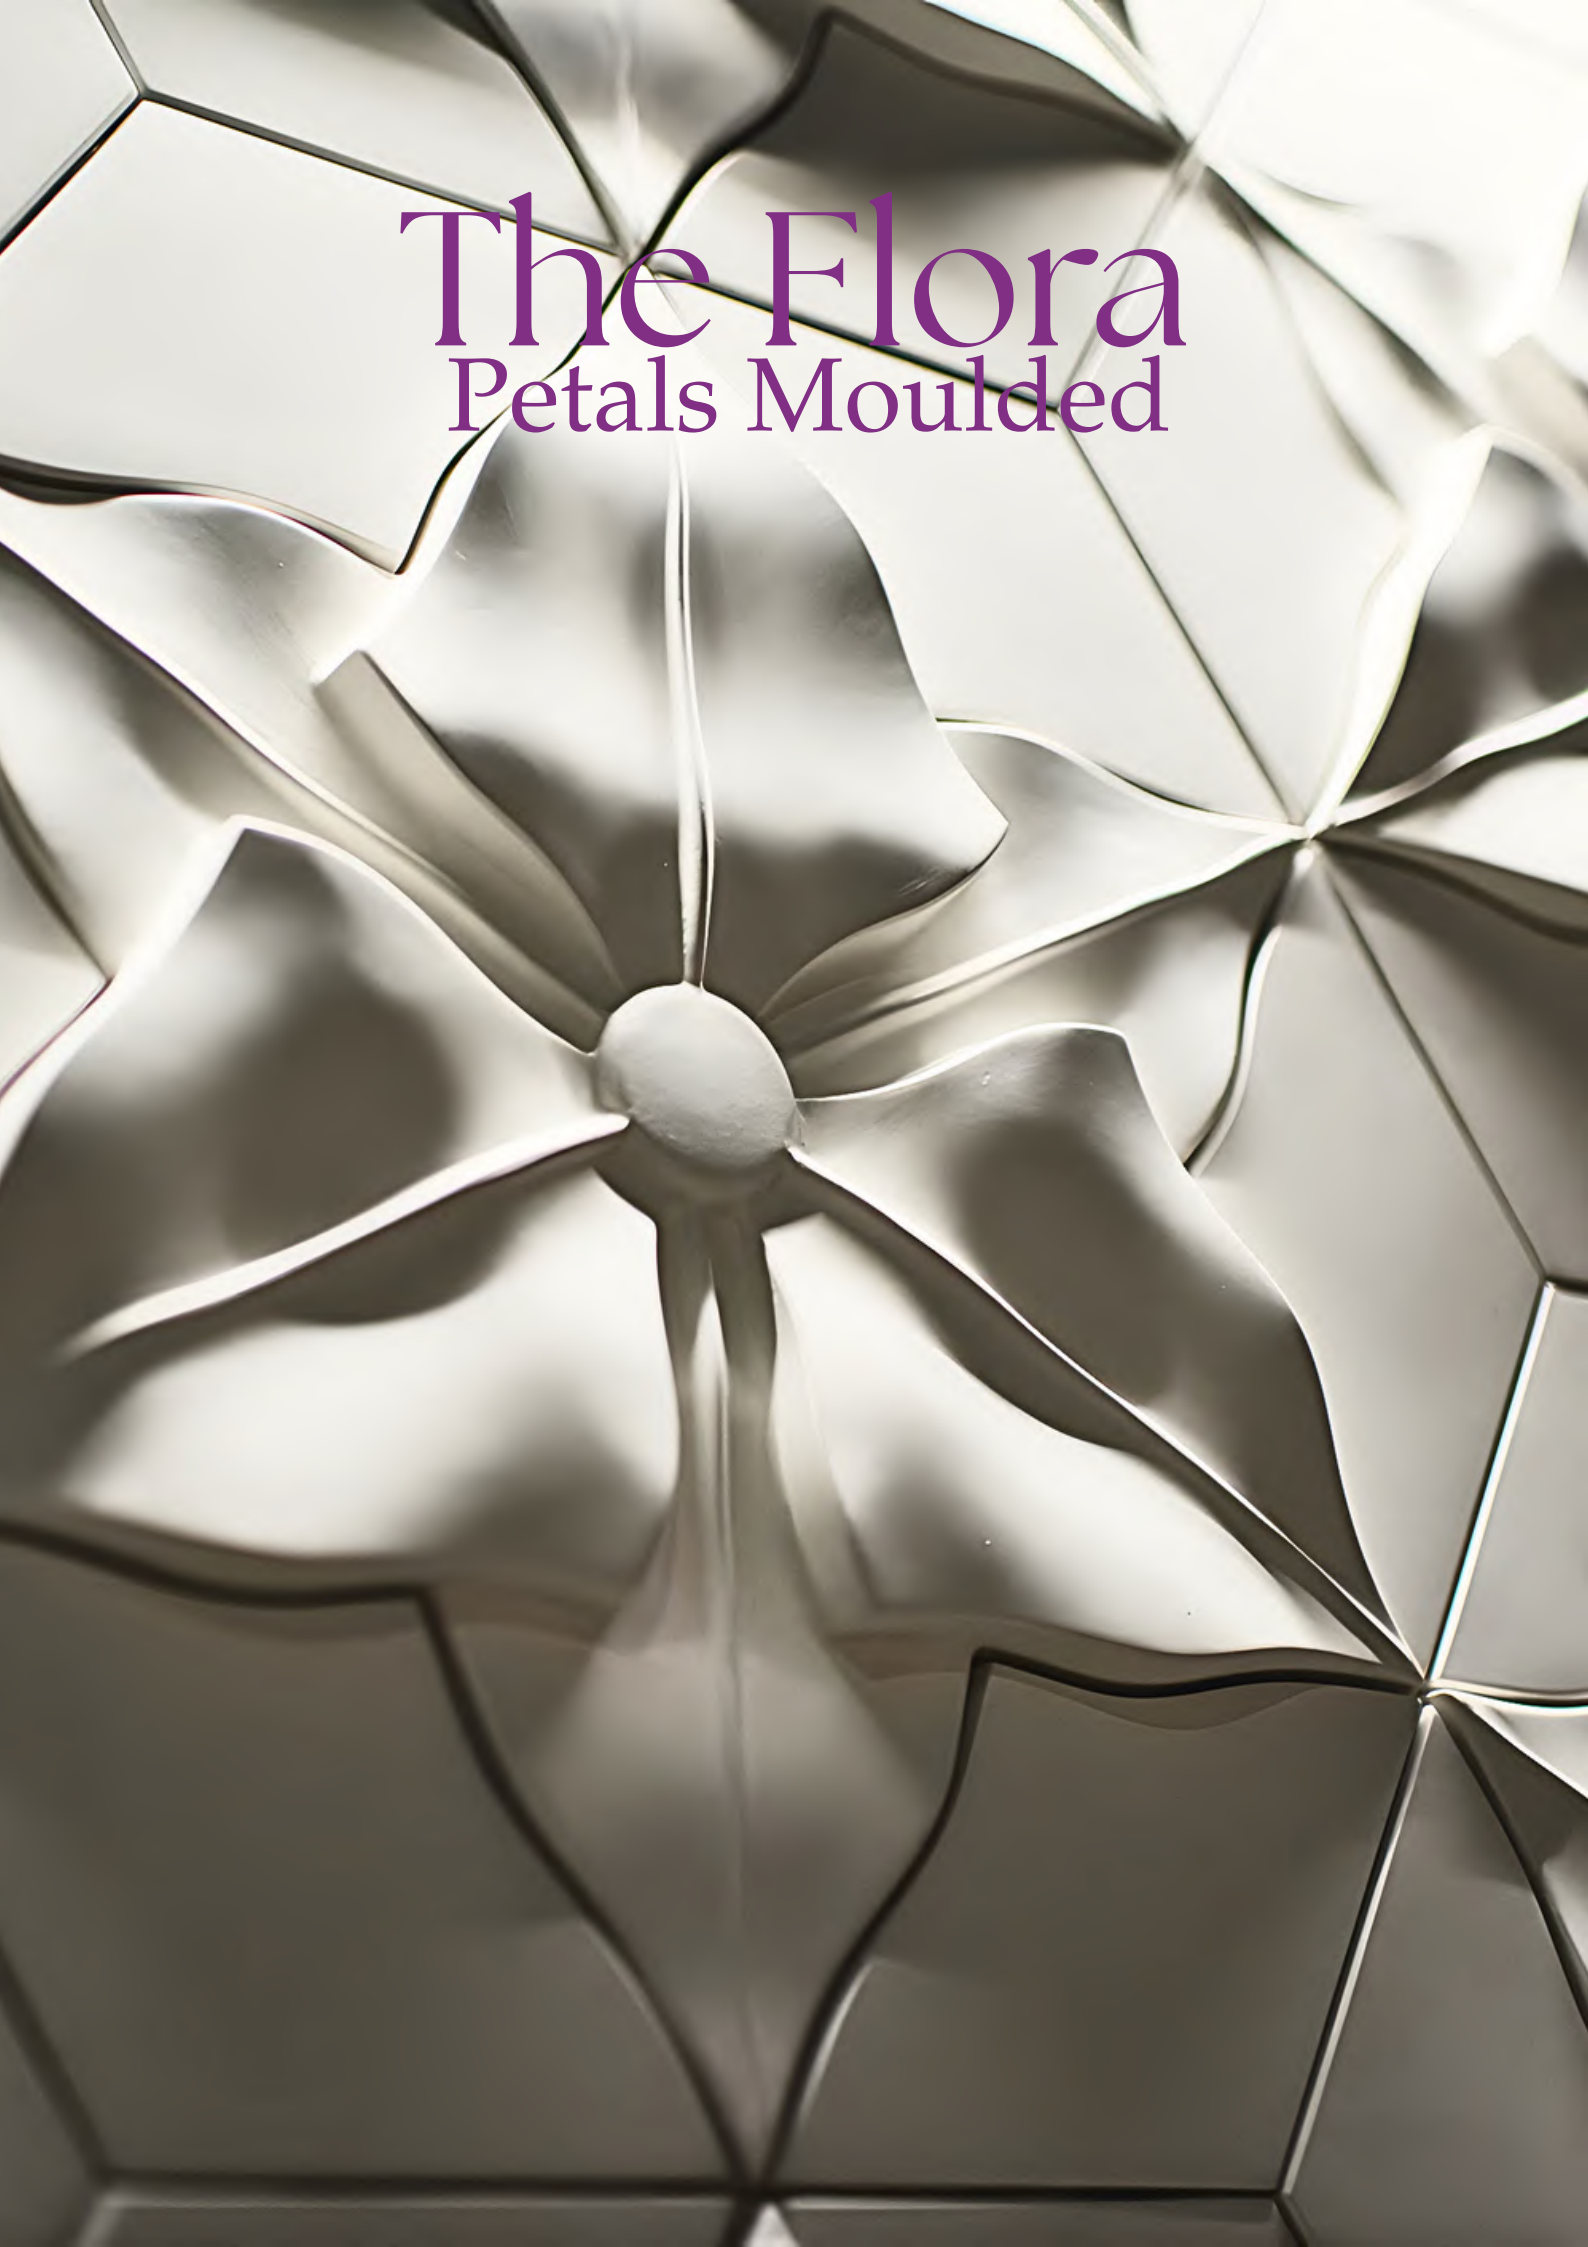

Diamond 3D tiles carve light into geometry. Their faceted surface creates shifting highlights and shadowplay, bringing structure and sparkle to minimal spaces.

The Flora

Petals Moulded

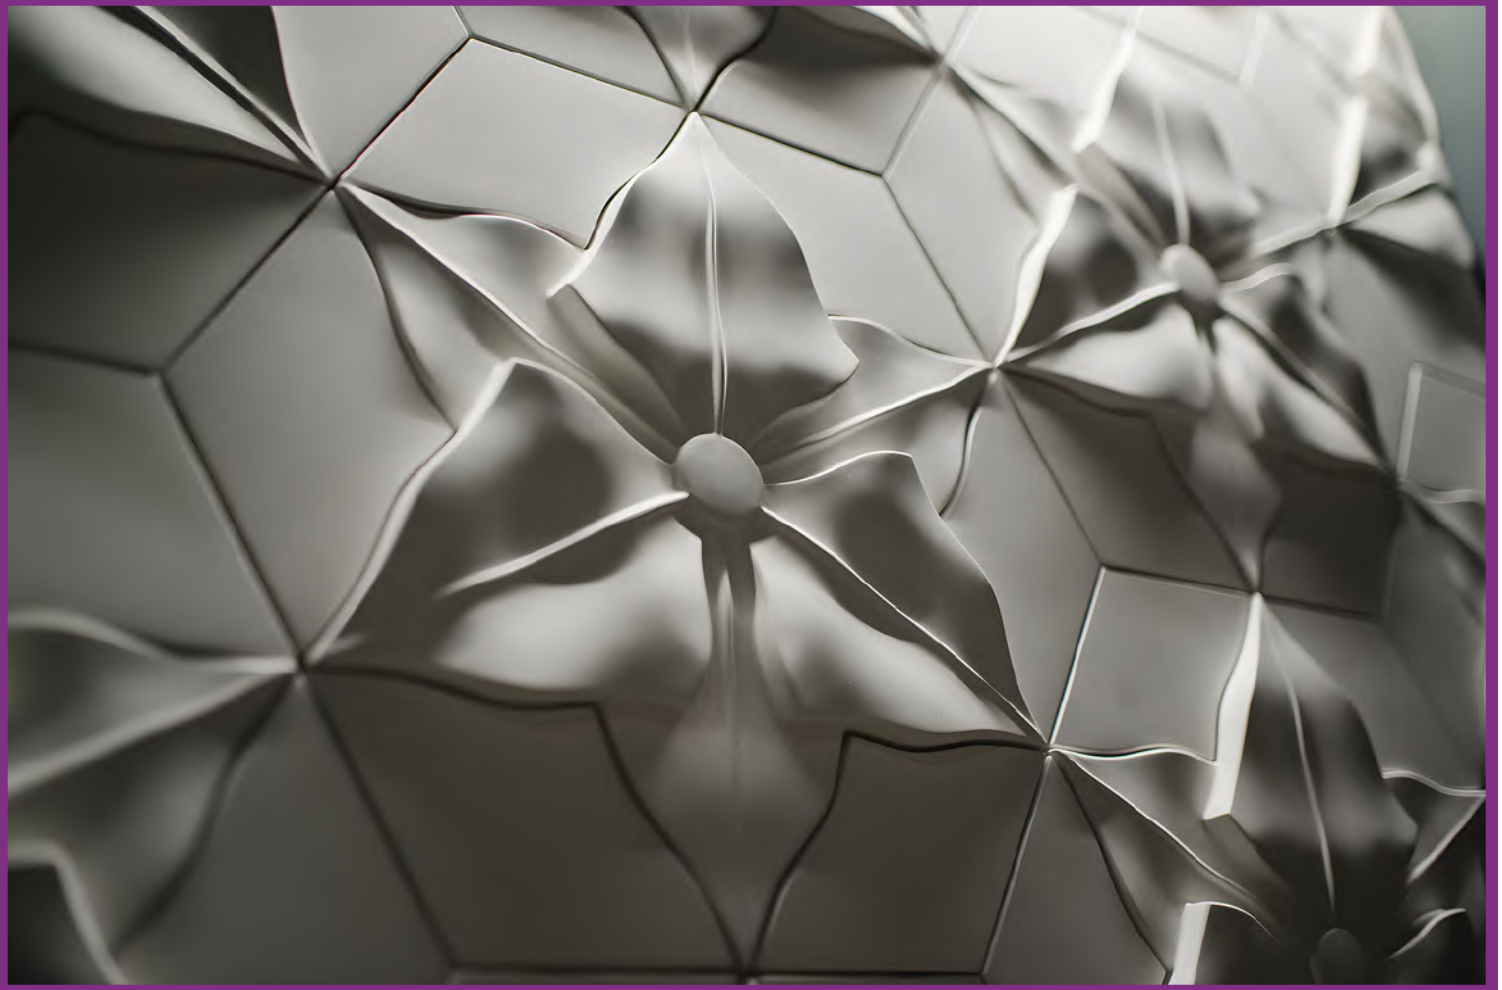

Nature Amplified The Flora

Let walls bloom. Flora tiles awaken interiors with sculpted botanicals that breathe serenity into space. Their embossed patterns feel like nature frozen mid-motion—soft curves, quiet petals, and graceful stems.

Flora tiles marry classical floral detailing with crisp architectural lines.
